

# Naturopathic Doctor

## June Health

**Location:** Remote (Canada)

**Employment Type:** Part-time / Fractional

## About June Health

June Health is reimagining healthcare for women. We are building a modern, virtual care platform that supports women through every stage of life, with a particular focus on the unique health challenges that emerge during midlife. Our mission is to make expert, personalized, and compassionate care accessible, empowering women to thrive at work, at home, and in their communities.

We combine clinical excellence, technology, education, care navigation, and employer partnerships to deliver a more connected and supportive healthcare experience.

As we continue to grow, we are looking for a talented UX Designer to help shape the future of women's healthcare.

## The opportunity

We're looking for an ND who's passionate about women's health, collaborative care, and helping members take back control of their health with supportive clinical care by their side. You'll join forces with NPs, Psychologists, RDs, and Coaches in a modern, integrated clinical model.

If you love whole-person care and want to make a meaningful impact in women's health, we'd love to meet you!

## Responsibilities

- Provide whole-person naturopathic care for women across life stages, including fertility, menstrual health, perimenopause, and menopause.
- Conduct comprehensive virtual assessments.
- Build personalized, evidence-informed care plans that support sustainable symptom relief and long-term health.
- Work closely with June's multidisciplinary team of NPs, Psychologists, RDs, and Coaches to deliver coordinated, integrated care.
- Document clearly and efficiently within June's EMR and clinical workflows.
- Contribute to June's women's-health programs and monthly practitioner rounds.
- Educate and empower members with warm, accessible, practical guidance.

## Qualifications

- Registered Naturopathic Doctor (ND) in good standing in Canada - primary focus currently: ON and BC
- Clinical experience in women's health: hormones, fertility, menstrual concerns, perimenopause, menopause.
- Strong skills in root-cause assessment, natural therapeutics, and lifestyle medicine.
- Comfort working in a team-based, integrated clinical environment.
- Experience with EMR and conducting virtual visits.
- Exceptional communication skills: warm, clear, member-friendly.
- Ability to create practical, sustainable care plans that fit real life.
- Experience with digestion, stress, sleep, inflammation, hormonal health and chronic symptoms.
- Commitment to evidence-informed practice and ongoing learning.
- A clinical style that aligns with June's culture: curious, thoughtful, collaborative, member-centered.

## Why join June Health?

- Make a meaningful impact on women's health and healthcare accessibility.
- Work alongside a passionate and mission-driven team.
- Help shape the future of a rapidly growing health technology company.
- Flexible remote work environment
- Competitive compensation

**To apply:** Please include contact information, CV and note your interest and availability to work Fractional/PT hours
