

Quick Start Guide

EVO Premium Cube

EVO Premium Cube

Compatibility

AIRPLANE SAFE
MOBILE SAFE
5G SAFE
Wi-Fi SAFE
AUTOMOBILE SAFE

A Cube Socket
B Power supply
C Power plug

Getting Started

Plug in the power supply and gently push the socket plug end into the socket on the EVO cube. Make sure not to force the plug as this may damage the socket. Damaged sockets from wrongful use or excessive force used or dropping are not covered under the warranty.

Preferably locate the EVO cube in a central area within your home or office. Place on a flat smooth and stable surface. Place out of reach of young children, keep the power cord tucked away to avoid children pulling on it or household pets from chewing on the wire. There is a risk of electric shock if the cord is broken. There is risk of bodily harm if the EVO cube is dislodged from its location and falls.

Only use the included power supply as other third party power supplies may be the wrong voltage or polarity, potentially damaging the EVO cube beyond repair. Using incorrect power supplies will void the warranty. If a new cord is needed, contact your distributor to buy a genuine Blushield power pack.

Once the power plug is inserted you will observe the LED indicator light up.

If you fail to see a small light at the hole make sure the power supply is turned on at the wall. Do not force the plug into the socket.

Blushield will not be held responsible for bodily harm on behalf of the customer.

The customer will ensure that the unit is positioned in a safe area and will not fall onto property, people or animals.

Important Instructions

- DO NOT place the Cube in damp areas or bathrooms as there may be a risk of electric shock
- DO NOT use force to insert the power plug into the socket
- DO NOT attempt to modify or open the case, this will void warranty and you may risk electric shock
- DO NOT try to charge the unit as it does not contain any battery
- DO NOT place the EVO cube on an unstable surface

Place out of reach of young children, keep the power cord tucked away to avoid children pulling on it or household pets from chewing on the wire. There is a risk of electric shock if the cord is broken.

EVO Premium Cube

What the B1 Does Not Do

- EVO Cube DOES NOT interfere with wireless devices
- EVO Cube DOES NOT block any mobile phone or Wi-Fi signals
- EVO Cube DOES NOT interfere with pacemaker use
- EVO Cube DOES NOT cause electronic devices to stop working

Adjustment Period

The EVO cube is a completely new design of EMF protection which may see extra benefits over other previous models such as:

- Better quality sleep
- More stamina
- Emotional detox and physical detox
- Enhanced feeling of well being/calm

Using one EVO cube per story in an apartment, or one EVO cube per house or office should be sufficient. Each EVO cube will have a spherical coverage of up to 240m diameter.

Warranty

The EVO cube is strictly for interior use only. It carries a limited warranty for a period of one year. This covers factory defects or faults only.

The warranty does not cover misuse, modification, neglect, water damage, or opening of the case. The warranty does not cover wear and tear on the power plug cord or damage to the power cord.

All shipping costs for the warranty are borne by the customer.

The Blushield distributor will inspect all returns to determine the fault.

CAUTION RISK OF ELECTRIC SHOCK: For interior use only. Do not use in damp or humid areas.
