

BEVELED END CAPS

ALUMINUM & STAINLESS STEEL

PITTSBURG STYLE BEVELS

STOCK SIZES FROM #4 TO #30

ASTM C585 STANDARD

**SMOOTH OR STUCCO
EMBOSSED**

**PAINTED OR POLYSURLYN
MOISTURE BARRIER**

CHARACTERISTICS

S3T Pittsburgh & Machined Bevel End Cap fitting covers are made in one & two piece designs and are manufactured to ASTM C585 recommended dimensional standard and “manufacturer’s simplified dimensional standards.”

BEVEL FINISH

S3T Beveled End Caps are an upgraded alternative to traditional caps. These finished pieces add a higher specification to vertical terminations. S3T has developed a process to finish Pittsburgh style bevels along with traditional Machined “bead & crimp” style.

ASSEMBLED FINISH

S3T Beveled End Caps are available in Stock sizes from #4 up to #30 and are available in a variety of metal gauges and finishes. A large range of custom sizing is available. Contact your sales rep for more information.

ALUMINUM

Smooth or stucco embossed,
Painted or polysurlyn moisture barrier

STAINLESS STEEL

Smooth or stucco embossed, no moisture
barrier or polysurlyn moisture barrier
