

4 Car Stacker

COMPACT PARKING. MAXIMUM EFFICIENCY.

OVERVIEW

The **LL-442000 4 Post 4 Car Stacker** provides an intelligent vertical parking solution capable of storing up to four vehicles within a single parking bay footprint. Built with heavy-duty steel construction, hydraulic lifting technology, and customisable finishing options, this system is ideal for projects where space optimisation is critical.

Designed for both functionality and presentation, the LL-442000 combines industrial durability with a clean, modern appearance suitable for commercial and architectural environments.

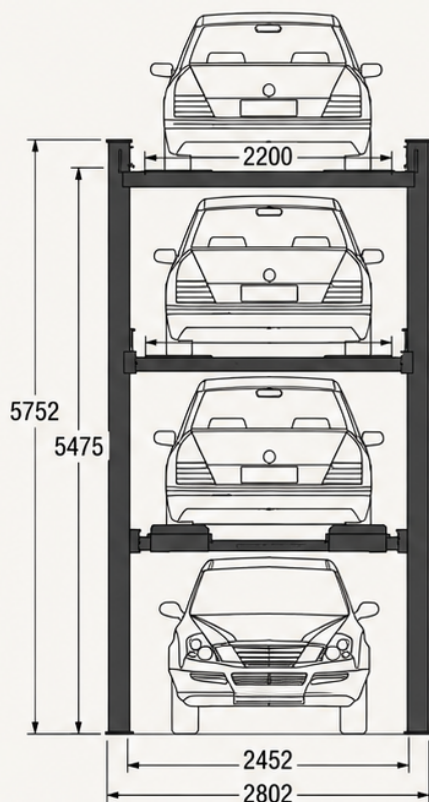

SOLUTION VARIATIONS

The unit can be customized in different ways., varying the lifting height of level 1, removing platforms and increasing the weight capacity of each level.
