

2 Car Scissor Stacker

COMPACT PARKING. MAXIMUM EFFICIENCY.

OVERVIEW

The **2 Car Scissor Stacker** is an innovative, post-free parking solution engineered for residential, commercial, and automotive storage applications. Featuring a concealed scissor lifting mechanism beneath a full-width platform, it eliminates obstructive side posts to provide unrestricted door access and maximum usability. Perfect for garages, dealerships, workshops, and premium vehicle storage, it delivers exceptional space efficiency without compromising convenience or accessibility.

PRODUCT FEATURES

Post-Free Design

The innovative scissor lifting mechanism is positioned beneath the platform, eliminating vertical posts and providing unrestricted access to vehicle doors for easier entry and exit.

No Pit Installation

Designed to be installed directly onto a standard concrete slab, the 2 Car Scissor Stacker requires no excavation or foundation pit, making it ideal for new and existing garages.

Smooth Hydraulic Operation

Twin hydraulic cylinders deliver smooth, stable, and balanced lifting performance, with a standard lifting capacity of 2,000 kg and higher capacities available on request.

Advanced Safety System

Equipped with dynamic mechanical safety locks, automatic electric lock release, hydraulic overload protection, and a 24V low-voltage control system for safe and reliable operation.

Customisable to Your Needs

Available with a range of options including custom RAL colours, platform widths, lift heights, hot-dip galvanising, outdoor power pack covers, remote controls, and Schneider electrical components.

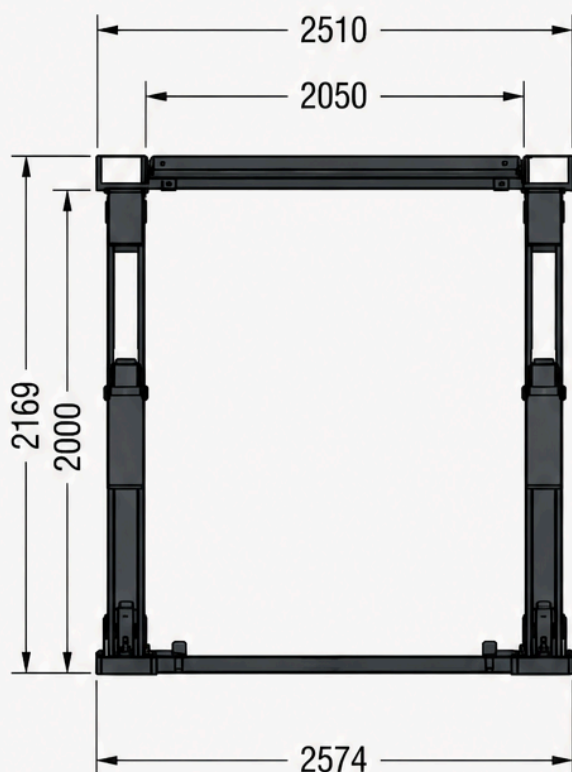

Perfect for Tight Spaces

An ideal solution for residential garages, car dealerships, workshops, vehicle storage facilities, and premium parking projects where maximising space and maintaining easy vehicle access are essential.

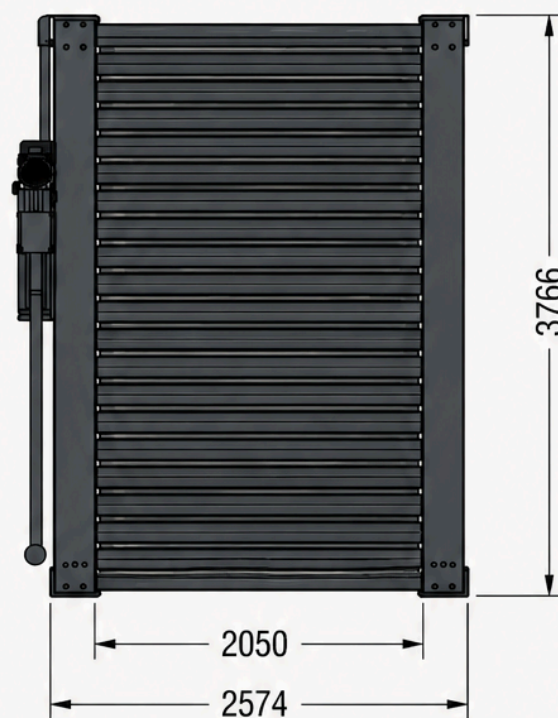

SPECIFICATIONS

Model	LL - SC220
Number of Cars	2
Lifting Capacity	2000kg
