

2 Car Stacker

COMPACT PARKING. MAXIMUM EFFICIENCY.

OVERVIEW

The **LL-423618K Four Post Double Stacker** is a proven and versatile parking solution designed to maximise vehicle storage while maintaining ease of access and safety. Engineered to accommodate two vehicles in a single parking space, it offers an efficient and cost-effective solution for residential, commercial, and automotive applications.

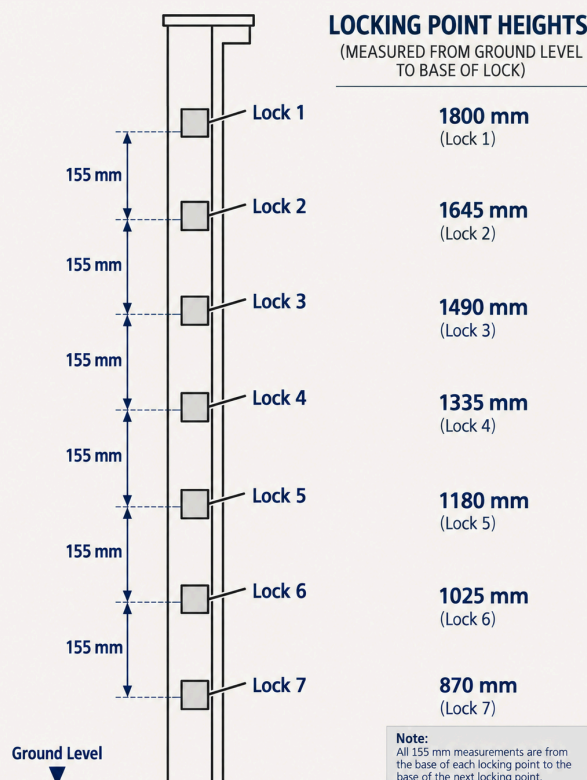

Featuring adjustable lifting heights to suit a wide range of vehicle sizes and parking requirements, the LL-423618K is available with load capacity of 3600kg. Its robust construction, dual-lock safety system, and customization configuration ensure reliable performance and long-term durability, making it an ideal choice for homeowners, car collectors, dealerships, workshops, and commercial parking facilities.

PRODUCT FEATURES

- **Full-Range Mechanical Safety Locks:** Four-post locking system provides secure vehicle positioning at multiple lifting heights..
- **Dual Locking System:** Double-lock design delivers enhanced safety, stability and peace of mind.
- **Manual Lock Release:** Ladder-style manual release system ensures simple, reliable and efficient operation.
- **Optional Caster Kit:** Allows the lift to be easily repositioned when required, adding flexibility to your garage or workshop.
- **Diamond Plate Runways & Ramps:** Heavy-duty anti-slip surface provides excellent traction, durability and a premium finish.
- **Heavy-Duty Steel Construction:** Built from high-quality steel for maximum strength, rigidity and long-term reliability.
- **Engineered for Daily Use:** Precision-engineered components deliver dependable performance in residential and commercial applications.
- **Includes Three Oil Drip Trays:** Complimentary plastic drip trays help keep the lower vehicle and garage floor clean and protected.
