

# 2 Car Stacker

COMPACT PARKING. MAXIMUM EFFICIENCY.

## OVERVIEW

The LL-2223K 2 Car Stacker is the ideal solution for garages and parking spaces where every square meter matters. Designed to safely store one vehicle above another, this lift combines a minimal footprint with commercial-grade engineering.

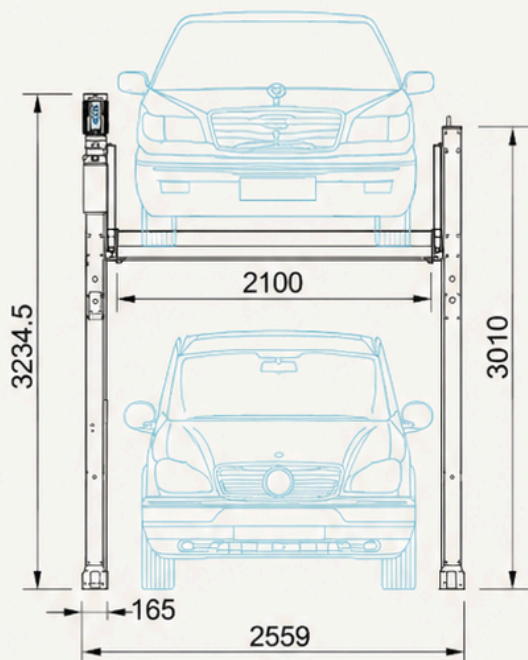

With smooth hydraulic lifting, automatic lock release, and durable powder-coated finishing, the LL-2227K offers a clean, efficient parking solution for modern homes, workshops, dealerships, and apartment developments.

This unit can be expanded by adding additional units (B units) that share a common support post with the original unit. This modular design maximizes space efficiency and minimizes the overall footprint, saving every possible centimeter.

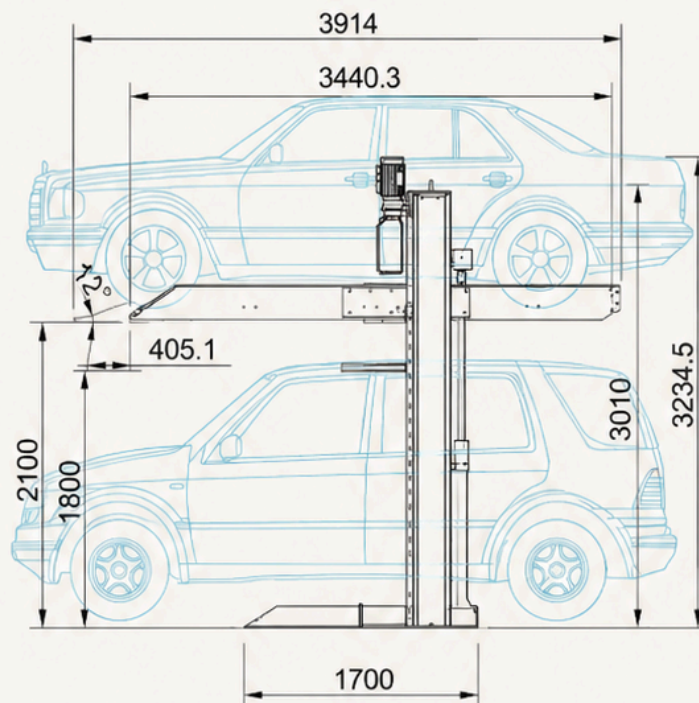

## SPECIFICATIONS

|                    |                                                 |
|--------------------|-------------------------------------------------|
| Model              | LL - 2223K                                      |
| Number of Cars     | 2                                               |
| Lifting Capacity   | 2300kg                                          |
| Max Lifting Height | 2100mm                                          |
| Platform LxW       | 3914mm x 2100mm                                 |
| Unit LxWxH         | 3914mm x 2559mm x 32340mm                       |
| Power Options      | Single or Three Phase                           |
| Power Pack         | 2.2kw hydraulic pump                            |
| Safety Controls    | Full range of locking points, auto elec release |
| Operation Mode     | Key switch                                      |
| Finishing Options  | Powder coat - choose your own colour            |
