PEFC CERTIFICATION

PEFC-certified wood
(PEFC/32-31-699)

WARRANTY

24 months

A full conference room, acoustically sealed

Spacious interior for 8

At just over 6 m², Poddie Conference comfortably seats eight people around the table — full team meetings without booking the building's one conference room. Acoustically sealed from floor to ceiling, with continuous fresh air circulation, the room stays quiet, comfortable, and breathable through the longest sessions.

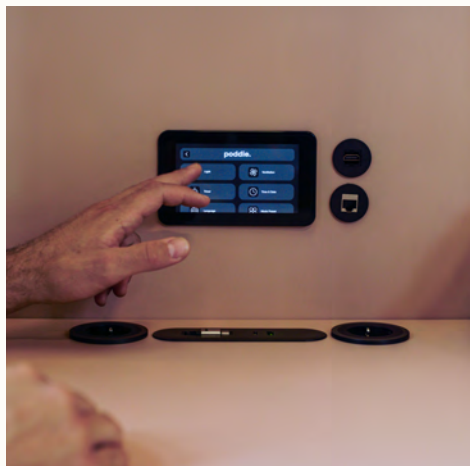

Adjusts to how you meet

The table adapts to however your team works best — standard chairs, high seating, or standing for a quick, focused session. It comes standard with every unit, with optional chair types available to match the height you choose. No one stuck reaching up or hunching down.

Conference gets the details right.

Six features that make the difference between a pod you use and a pod you look forward to.

Touchscreen control panel

An inside-wall 5.3" touchscreen puts light and ventilation in your hand. Two mood presets are available for quick adjustment.

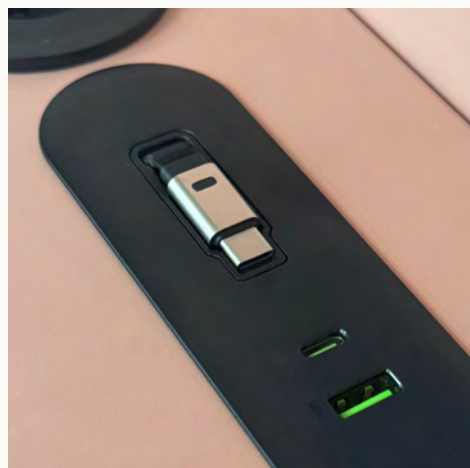

Tunable light temperature & brightness

Warm to focused — set the light to the moment. Fully dimmable.

Adjustable ventilation

Fine-tune the airflow intensity to your needs — from a gentle breeze to full circulation.

Retractable 65 W USB-C cable

Power box with 100 cm retractable cable that charges a laptop, then disappears when not needed.

Built-in LAN / Ethernet

Wired ethernet and HDMI, built in — hybrid meetings without a single trailing cable.

Full color range

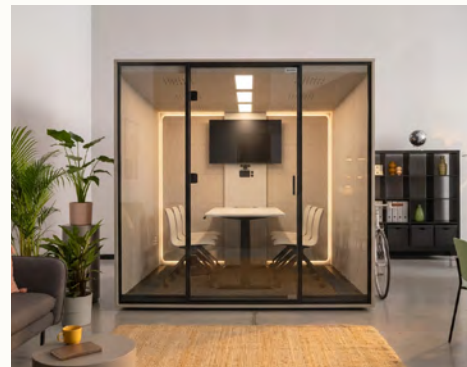

All 15 color combinations — standard, no upcharge.

The engineering behind every pod

Acoustic isolation

Designed for clear, natural conversations. Acoustic felt on the walls and ceiling, the carpeted floor and the layered interior construction help absorb reflections and reduce reverberation – so your voice sounds clear and balanced during every call.

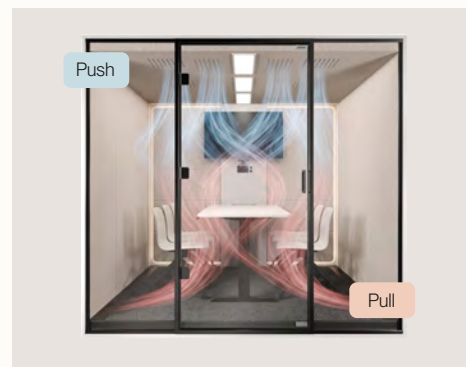

- 8 mm tempered acoustic glass sealed against the aluminium door frame
- Top and bottom sound traps integrated into the structure
- Anti-vibration fans — fresh air without the hum

Ventilation

Twenty-four whisper-quiet fans — twelve in the ceiling, twelve in the floor — Poddie's signature "Push-Pull" ventilation system.

- Unique mechanism to effectively direct used air out without creating air swirls
- 27.6 m³/min ventilation rate · 1000 RPM fans
- Acoustic sound traps in the ducts
- Adjustable airflow

Top light

A bright, evenly lit interior helps the whole team stay focused. Three ceiling LED bars create a comfortable workspace for meetings and workshops of any length.

- 3 LED bars with exceptional color accuracy (CRI > 90)
- 500 lux across the table
- 4000 K color temperature
- Adjustable brightness and temperature
- EN 12464-1 EU workplace lighting compliance

Passive illumination

An LED strip hidden behind the side wall panel casts a soft, even glow that makes the pod feel open and comfortable, even during long sessions.

- 4000 K color temperature
- 240 lux
- Dimmable intensity
