PEFC CERTIFICATION

PEFC-certified wood (PEFC/32-31-699)

WARRANTY

24 months

Das Original.

Everything a call needs. Poddie One keeps the price at the entry point by keeping the booth simple — the acoustic and air engineering are the same care you'll find across the family.

Acoustic isolation

Designed for clear, natural conversations. Acoustic felt on the walls and ceiling, the carpeted floor and the layered interior construction help absorb reflections and reduce reverberation — so your voice sounds clear and balanced during every call.

- 8 mm tempered acoustic glass sealed against the steel door frame
- Top and bottom sound traps integrated into the structure
- Anti-vibration fans — fresh air without the hum

Ventilation

Four whisper-quiet fans — two in the ceiling, two in the floor — Poddie's signature "Push-Pull" ventilation system

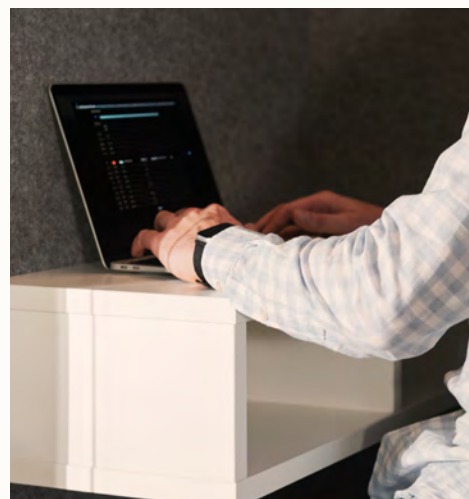

- Unique mechanism to effectively direct used air out without creating air swirls
- 4.6 m³/min ventilation rate · 1000 RPM fans
- Acoustic sound traps in the ducts

Built-in table

The bar-height table (105 or 108 cm, set at assembly) puts you in a natural standing position — the way most people instinctively take a call. Standing keeps calls shorter, your voice more energetic and your back out of the desk-slouch. Add the Poddie Balance stool and you get a second mode: a relaxed bar-height lean for the longer ones.

- Bar-height table, set to 105 or 108 cm at assembly
- Optional Poddie Balance stool (54–79 cm)

Charging on board

Everything you need to stay powered and connected — built into the pod. A 230V socket and USB ports built into the table. Charge, plug in, work — no extension cord snaking under the door.

- 1 × 230V power socket
- 1 × USB-C + 1 × USB-A
- Optional LAN connection

Top light

Soft, even light for the length of a call. The ceiling LED switches on as you step in and keeps the booth comfortable without glare.

- 80 cm LED bar · CRI > 90
- 180 lux · 4000 K color temperature
- Motion-activated

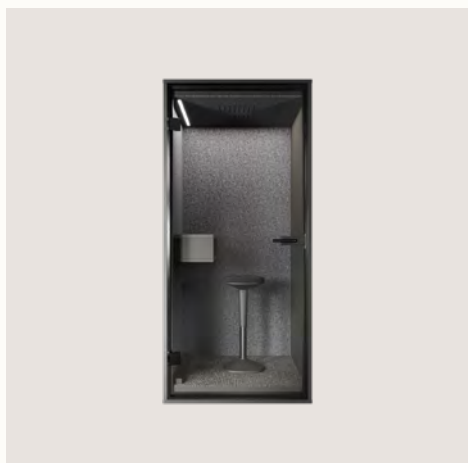

Deliberately simple

Poddie One is our first booth — and still our most popular idea: superior acoustics at a price every company can justify. No touchscreens. No app. You step in, the light is on, the air is fresh, the office noise is gone. That's the whole product — and that's the point. Two colors and one configuration keep our production line fast and your price low. The soundproofing? Identical engineering philosophy to every Poddie we build.
