

LITHIA

ENGINEERING

VALUE ENGINEERING, STRATEGIC SOURCING & DISTRIBUTION

**Lithia Engineering provides Value Engineering services,
and is a stocking distributor for OEMs in Northern Nevada**

- Sourcing CNC turned and milled parts from domestic suppliers
- Sourcing sheet metal fabricated parts from domestic suppliers
- Sourcing plastic injection molded parts, dies, and molds from foreign and domestic suppliers
- Kitting, contract manufacturing & light assembly

- ISO 9001:2015 & AS9100D certified shops in the U.S.

- Consignment or Vendor Managed Inventory (VMI) at your facility
- Just In Time Inventory (JIT) at our Reno, Nevada warehouse

CAPABILITIES & PROCESSES

CNC TURNED & MILLED PARTS

CNC Turning • CNC Vertical & Horizontal Machining •
Multi-Spindle Screw Machining

MATERIALS

Stainless • Aluminum • Titanium Alloys • Carbon Steel • and more

SHEET METAL PARTS

Bending • Drilling • Cutting • Welding • Plating • Joining • Stamping •
Roll Forming • Paint • and more

MATERIALS

Hot and Colled Rolled Sheet Steel • Aluminum Alloy Sheet • Stainless • and more

PLASTIC INJECTION MOLDED PARTS

Injection Molding • Rotational Molding •
Compression Molding • Extrusion Molding •
Blow Molding

MATERIALS

Acetal • ABS • Nylon HDPE • PP • PEEK • PTFE • and more
