

PARTNERSHIPS

Building a safer world, together.

Partner with us to make safety something the women around you carry every day.

WHY THIS MATTERS NOW

Safety in India is still a daily calculation.

50+

crimes against women reported every
hour in India

Over 4.4 lakh cases in 2024, a rate of 64.6 per
lakh women. NCRB, 2024.

- **THE NUMBER BARELY MOVES.**
Year after year it holds near 4.4 lakh reported cases. This is not a spike. It is the baseline.
- **SAFETY SHAPES EVERYTHING ELSE.**
It decides whether women travel, work, and study. India still has one of the lowest female workforce participation rates in the world.
- **THE MOMENT IS WHERE TOOLS FAIL.**
When something goes wrong, help depends on finding a phone and opening an app. That is the wrong thing to rely on.

WHAT WUALT IS

A wearable, an app, and a circle that acts fast.

Personal safety you wear every day. When something feels wrong, one discreet action reaches the people who can help. No hunting for a phone, no app to unlock in the moment that matters.

THE WEARABLE

Discreet & worn all day. A deliberate press sends an alert, with no need to find or unlock a phone.

THE APP AND CIRCLE

Her alert reaches the people she trusts in an instant, so someone who can help knows right away.

SHE STAYS IN CONTROL

Wualt makes reaching help faster and quieter. The woman is always the one who triggers it.

WHAT A PARTNERSHIP LOOKS LIKE

Four kinds of partner. Four ways of working.

ORGANISATIONS

HR and DEI teams, universities, hostels, societies

We equip a group of your women with Wualt, onboard them together, and give you clear reporting on adoption and engagement.

MISSION PARTNERS

NGOs, helplines, shelters, advocacy groups

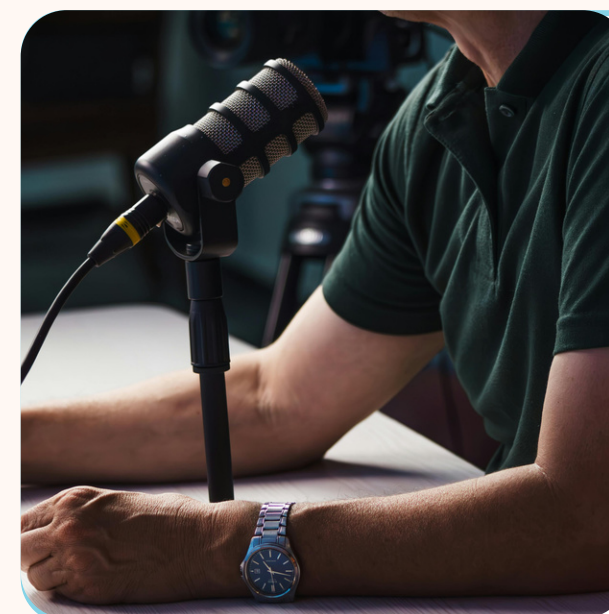

We put devices in the hands of the women you already support, and run joint awareness and referral programmes.

CARE & SAFETY PROFESSIONALS

Gynaecologists, therapists, coaches

You recommend Wualt to the women you already advise, with a partner code and ready-made materials from us.

VOICES & CREATORS

Creators, podcasters, journalists, writers

We collaborate on honest safety storytelling, and give you early access and real data to work from.

HOW WE WORK TOGETHER

What we can build together.

Most partnerships mix a few of these. Start with one, add more as it grows.

DEVICE PROGRAMMES

Get Wualt to your community, from a pilot cohort to a full rollout.

CO-BRANDED CAMPAIGNS

Films, stories, and content made together, on safety without the fear.

SAFETY WORKSHOPS

On-ground awareness and safety sessions run for your people.

INSIGHTS AND REPORTING

Anonymised safety and engagement signals you can actually act on.

AMBASSADOR PROGRAMMES

Partner codes and ambassador roles for the voices you trust.

EVENTS AND COMMUNITY

Show up together where your community already gathers.

If your community needs something else, we will shape it with you.

Let's build a safer world.
