Refill the recyclable Travel Pods for freshly prepared ingredients

The recyclable **Travel Pod**, known as Airless Shuttle at SR Packaging, is an advanced multi-cartridge airless design. By the end of usage of each product, consumers purchase refills according to their current skin conditions to continue their daily treatment.

One complete package includes three **Travel Pods** of three different products as one set. Whether home or away on a trip, the Travel Pods are users' best skincare pal.

About SR Packaging companies

Started in 2003, SR Packaging companies manufacture airless bottles, jars, dispensing solutions, and tubes using post-consumer recycled plastics and biomass plastics to help skincare, personal care, beauty, and cosmetic companies build measurable success with advanced technology and high efficiency in line with consumer demands.

With R&D labs, production facilities, and sales offices across Taiwan, China, Japan, and the United States, SR Packaging companies provide immediate support targeting sustainable goals.
