

One-way valve tubes

- ✓ Air-blocked
- ✓ Leakage-proof`
- ✓ Less product residue
- ✓ Bi-color molding cap

Natural & Organic
Clean Beauty

www.srpacaging.com

The air-blocking, one-way valve tube helps personal care companies develop clean beauty products and quality is guaranteed.

Applications:

Skincare and haircare, products with naturally derived active extract.

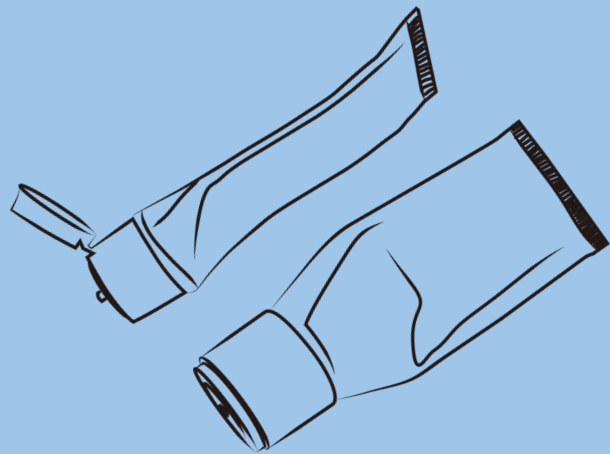

Body lotion, moisturizer, scalp massaging treatment, shower gel, shampoo, conditioner.

After-sun soothing lotion, Reef Safe Sunscreen.

When consumers start to use the product, it also allows users to control product dosage easily and guards the product quality by allowing no air back in.

By the end, the tube is completely emptied, leaving nearly no residue.

Allows no air back in.

Leaves less product residue.

D40, D35, or D30, there are 3 sizes of one-way valve flip-top caps matching with flexible tubes to satisfy small or large filling capacities.
