VESTA, EBM airless bottle

MONO-MATERIAL AIRLESS BOTTLE

VESTA, the elegantly built mono-material EBM airless bottle, matches with airless sprayers and pumps for diversified formulae and different purposes. The dispenser works well with high viscosity or light mist for an even, fine spray.

Its bag-in-bottle design and the matching dispenser are all PP plastic, with less than 2% EVOH for the inner pouch to achieve the best barrier performance possible.

It conforms to US and European packaging design regulations, entirely recyclable without disassembling.

(For the PP pump, the spring remains metal for reliable performance.)

Mono-material, recyclable

Airless, protects preservative-free products

360 dispensing for upside-down usage

Opt for post-consumer recycled resin, PCR

Chemical compatibility for quality & product stability

PLANET-POSITIVE PACKAGING FOR HOME ESSENTIALS

Home Freshener / Sprayer

Home Freshener contains natural ingredients providing a delightful breath at home and create a comforting environment that relaxes the body.

Hand Sanitizer Gel / Pump

Welcoming guests with extra care by the door entryway, the Hand Sanitizer Gel has nourishing plant extracts to protect the skin while killing bacteria.

Fabric Spray / Sprayer

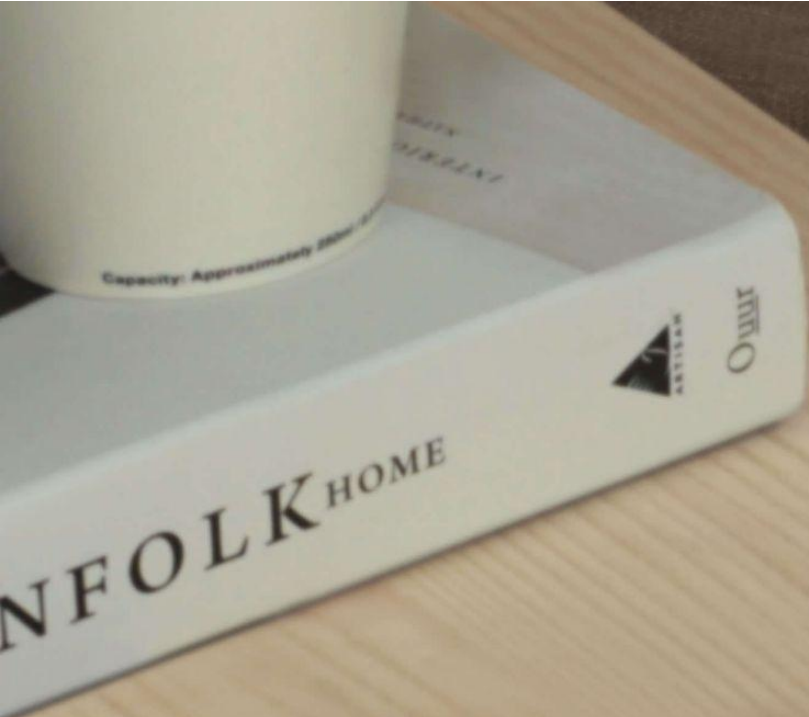

The light spray instantly removes the odor on the coat, clothes, or the couch while killing bacteria. It kicks away unpleasant smell with immediate refreshment on fabric.

Shoe Deodorizer / Sprayer

The blend of essential oils is an odor-stomping spray that helps eliminate the stink, specifically designed to destroy odors inside the shoes.
