## The VIP hunt on big Ibex

We invite you to an unforgettable journey into the untouched expanses of Kyrgyzstan, where you will have the opportunity to hunt truly outstanding ibex with horn lengths exceeding 125 cm. Our exclusive VIP hunting area offers not only the challenge of a demanding hunt but also exceptional game populations. Accompanied by experienced guides who know the paths of the majestic Tien Shan Mountains like the back of their hand, you will track ibex on horseback through this breathtaking landscape. Our professional hunters and guides ensure that your hunt focuses exclusively on particularly strong, mature ibex. Our VIP hunting trips to Kyrgyzstan are designed to exceed your expectations. Let us know your personal requirements, and we will make sure that your journey is tailored precisely to your individual wishes.

## Informations:

You will hunt approximately 5–6 hours by car south of Bishkek at elevations between 3,000 and 4,000 meters. In October and November, daytime temperatures usually range from +10°C to 0°C, while at night they can drop to –10°C to –15°C. Strong winds are common between the mountain ridges, so we strongly recommend bringing windproof clothing. Together with your travel documents, we will send you a detailed packing checklist to help you prepare optimally for the trip. All of your equipment should ideally fit into one duffel bag. The initial trophy preparation will be carried out on site. The cape will be removed according to your wishes and salted. The skull will be boiled and thoroughly cleaned of all remaining tissue, after which everything will be properly packed. From Bishkek, the trophy can then be shipped worldwide via international freight forwarders..
