ABOUT US

In Northeast Harris County, where many families face economic hardship and limited access to opportunity, the Transformation Outreach Center (TOC) stands as a beacon of hope. Every student we serve represents more than a number—they represent a future engineer, programmer, leader, or innovator whose life trajectory is being reshaped. In 2025, thanks to faithful partners and generous donors, TOC transformed lives by equipping students with skills, confidence, and opportunities that would otherwise remain out of reach.

WE ARE A COMMUNITY
WHERE THE NEXT GENERATION OF LEADERS WILL BE
ENCOURAGED, EQUIPPED AND DEPLOYED FOR SERVICE.

CLOSING THE DIGITAL DIVIDE THROUGH STEM

This year, TOC expanded its STEM initiative to prepare students not just to learn technology—but to lead with it. Twelve students enrolled in our IT Certification Program, and three earned their first Python certification, marking their first step toward careers in the technology sector. For students from underserved communities, this achievement represents access to careers that offer stability, dignity, and upward mobility.

Today, the results are clear: **74% of students involved in TOC programs are pursuing STEM degrees in fields such as mechanical engineering, aerospace, and computer science.**

We also understand how important reading at grade level is for a child. It is the most accurate predictor of academic success. Our Whiz Kids reading program is designed to help students read at or above grade level, in addition to providing the opportunity to impact students through instruction, encouragement and spiritual support – building skills that prepare them for lifelong success.

74%

**PURSUE STEM
DEGREES AFTER TOC**

PROVIDING STABILITY FOR FAMILIES IN CRISIS

While we prepare students for the future, we also meet urgent needs today. In 2025, TOC's **Helping Hands Food Pantry** provided essential food assistance to **2,747 children and adults**, ensuring families did not have to choose between paying bills and feeding their children.

Our Box of Love Thanksgiving event served **720 individuals**, and our **Back-to-School initiative** equipped **300 students** with backpacks and supplies—giving them confidence to begin the school year prepared and hopeful.

These programs do more than provide resources—they restore dignity, reduce stress, and create stability so students can focus on learning and growing.

TOTAL COMMUNITY ENGAGEMENT

THE RESULT: LIVES CHANGED, FUTURES REWRITTEN

Throughout the year **301 volunteers** contributed **2,061 volunteer hours** as mentors, professionals and community members, demonstrating a total community engagement.

In total, **4,061 individuals were directly impacted by Transformation Outreach Center programs in 2025**. Behind every number is a story—a student who now believes in their future, a family who found stability, or a young person who discovered their purpose.

This transformation would not be possible without partners who believe that every child deserves opportunity, regardless of their circumstances.

YOUR PARTNERSHIP MAKES

TRANSFORMATION POSSIBLE

As we look ahead, the need continues to grow. With your support, TOC will train future AI professionals, expand STEM education, provide food security, and develop leaders who will transform their communities.

When you invest in Transformation Outreach Center, you are not simply funding programs—you are changing lives, strengthening families, and building the workforce of tomorrow. Together, we are transforming potential into purpose.
