Laser & Cataract

Precise, fast and proven, join more than 40 million people worldwide that have undergone LASIK laser vision correction. LASIK delivers excellent results and a quick recovery period, allowing you to return to your normal activities the next day with no glasses or contacts, just clear vision.

Are you a candidate for LASIK?

You should be a good candidate if:

- you are 18 years or older
- your vision has been stable for at least a year
- you have otherwise healthy eyes

Should you not be a good candidate for Laser Vision Correction, there may be other great options for you:

- Implantable Contact Lenses (ICLs)
- Advanced Custom Surface Laser (PRK)
- Refractive Lens Exchange, including multifocal and extended depth of focus lens implants

Contact us for your **Free Laser Assessment** to see how we can help you to a new life without glasses.

Life's better
with better
vision

Dr Mo Ziaei

MBChB (Hons), MD, CertLRS,
FRCOphth, FRANZCO

Laser, Cataract &
Corneal Surgeon

Why do more people choose Re:Vision?

We're **#1 ranked** 5.0***** on Google Reviews!

We offer easy **interest free** payment options
(T&Cs apply) - see now, pay later!

We use **highest precision** German excimer
and Swiss femtosecond lasers.

We have the **most modern** vision correction
operating theatre in Auckland.

Our Re:Vision surgeons have successfully
performed **more than 18,000 laser** vision
correction procedures, fixing shortsighted-
ness, longsightedness and astigmatism.

97% of our patients **enjoy 20/20** vision within
1 day.

You have **peace of mind** knowing that many
of our staff, including a Re:Vision surgeon,
have undergone vision correction treatment.

Same Day Sight - We offer you the opportunity
to fast track your vision correction dream by
getting your laser suitability assessment and
laser eye surgery done on the same day.

Save money compared to a lifetime of buying
glasses/contacts and enjoy the benefits of
visual freedom.

WHY WAIT?

Call today for your **Free Assessment**
and see for yourself why more
choose Re:Vision!
