

Doctoral Research Assistantship Position: Computer Networks and Network Security

Expected to start: August 2019 (Fall 2019)

The Department of Computer Science at the University of New Orleans invites applications for one highly motivated full-time PhD student to conduct cutting-edge research in the areas of computer networks and network security. The position covers tuition and a monthly stipend. The student is expected to conduct high-quality research, cooperate with national and international partners, present research results at the scientific conferences, and publish in peer-reviewed scientific journals.

The student is required to have a strong background in the field of computer science and mathematics, outstanding programming skills (Java and Matlab preferred), and excellent writing and communication skills in English.

Interested applicants should enclose their application documents including the following information into a single .pdf file and send it to aynur@uno.edu.

- Curriculum vitae
- Undergraduate (graduate) transcript(s)
- GRE scores
- TOEFL or IELTS scores (international students only)
- Writing sample, scientific papers are preferred but not required (If you do not have any publication, 1-page motivation letter is acceptable).
