The Office of Student Financial Aid understands that families need financial assistance to help fund the student's educational expenses. Although The University of New Orleans will award various resources of aid which includes Federal, State, Institutional and Private award sources; we also highly encourage students to seek outside scholarships to help bridge the gap.

Please find listed below some scholarship resources that we want to share with you to help you begin your search. If you have not already done so, you can begin seeking scholarships, create a profile or renew your profile and begin applying for as many outside scholarships as possible.

Keep in mind that often times, once you have created a profile with various scholarship programs, the Scholarship agency may alert you of additional scholarships that may become available and matches your interest and qualifications.

Schedule some time to explore these websites for available scholarships in which you meet the criteria. Additionally, the Office of Student Financial Aid may periodically email students information regarding scholarship opportunities that we have been made aware. Make sure to check your email address regularly as important information is made available through the email platform.
