

Scammers Level Up Against Gaming Platforms

Gaming is the #3 industry for both number and size of attacks, putting fair play and player trust at risk.

[Get the full, cross-industry report](#)

82%

of gaming malicious traffic comes from bots—far outpacing advanced bots, attack automation services and human fraud farms combined.

SEASONAL TRENDS

Malicious traffic distribution

Malicious traffic in gaming spiked dramatically during summer game releases and sustained high activity in Q4, when attackers target fall launches and holiday shopping seasons.
