

The Story Behind Halter Landscaping Inc.

Our story starts with 14-year-old Nathaniel Halter pushing a mower through his neighborhood to earn enough cash for his first car. Since 2010, Halter Landscaping has grown into a full-service company, caring for homes, businesses, government agencies, and school districts with professional lawn and landscape services. Our goal is simple: keep your outdoor spaces beautiful, healthy, and well-maintained while delivering superior customer service.
