Build Your Health With Intention

Support your health from the inside out with REBOOT's curated selection of wellness injectables. Designed to enhance recovery, optimize energy, strengthen immunity, improve cognitive function, promote healthy aging, and support metabolic wellness, our evidence-informed therapies are personalized to your unique health goals. Whether you're looking to hydrate, perform, or simply feel your best, our team will help determine which therapies are right for you as part of a comprehensive, root-cause approach to lifelong wellness. Pricing varies.

AMINO BLEND

A blend of Arginine, Citrulline, Lysine, and Proline are crucial to helping the body break down food, repair body tissue, grow and perform many bodily functions. They can boost metabolism, athletic performance, improve energy levels and mood, and help to burn fat.

VITAMIN B12

B12 is essential for many bodily functions, including the production of red blood cells and the proper functioning of the nervous system. It can help boost your energy levels, improve your mood, support your immune system, improve memory, promote healthy skin and hair.

VITAMIN D

Vitamin D is a critical nutrient that many people are deficient in. It is needed for the absorption of calcium and the regulation of your immune system. It also helps support healthy bones, teeth, and muscles, as well as reduce your risk of chronic disease.

TAURINE

Taurine is an important amino acid that helps regulate the cardiovascular system and the nervous system. It can improve your energy levels, support healthy brain and liver function, and reduce inflammation in the body.

GLUTATHIONE

The mother of antioxidants, glutathione, is great for the body. It's naturally produced by the liver and can be depleted as we age. It supports muscle and tissue repair, and liver function, improves skin elasticity, helps to improve insulin resistance, reduces cell damage in fatty liver, and reduces oxidative stress.

COQ10

CoQ10 supports athletic performance, boosts energy via ATP production in the mitochondria, reduces migraines and inflammation, and support male and female fertility. It is also a potent antioxidant that fights against free radicals.

BIOTIN

Biotin helps support the health of your skin, hair, and eyes. Biotin is especially helpful for use in cases of damaged or thinning hair and brittle nails. It also helps to break down food into energy for cells throughout the body.

GLYCINE

Glycine is an amino acid that helps protect hormones, improve sleep, support heart health, reduce muscle loss, and promote gut health. Glycine boosts immunity, repairs connective tissues, and helps to create collagen.

TRI-IMMUNE BOOST

Combines ascorbic acid, glutathione, + zinc to provide targeted nutritional support for immune health + overall wellness. Tri-immune Boost can help support antioxidant activity, cellular protection, + the body's natural immune response.

VITAMIN B6

Vitamin B6 is an essential nutrient that plays a key role in energy metabolism, neurotransmitter production, + nervous system function. This quick injection helps replenish B6 levels to support mood balance, healthy metabolism, + overall vitality.

CARNITINE

Carnitine is a naturally occurring amino acid derivative that plays an important role in energy production by helping transport fatty acids into cells for energy. This is a great option for anyone looking to support stamina, recovery, healthy metabolism, physical performance, + overall wellness.

B-COMPLEX + B12 DUO

Recharge your body with a potent blend of B vitamins designed to support energy, focus, + overall vitality. This B-Complex + B12 injection helps replenish essential nutrients involved in metabolism, nervous system health, and cellular energy production - making it a great choice for a quick + effective wellness boost.

LIPO + CARNITINE DUO

Lipo + Carnitine combines key amino acids and nutrients that support healthy metabolism + energy production. Carnitine plays an important role in transporting fatty acids into cells for energy utilization, while lipotropic compounds help support normal fat metabolism + overall wellness. Great addition to any wellness program.

GLOW DUO

Radiate from the inside out with our Glow shot, a revitalizing blend of Vitamin B12 + Biotin (B7) designed to support healthy energy metabolism and beauty from within. This quick, effective injection helps replenish key nutrients that play a role in healthy skin, hair, + nail function while also supporting natural energy levels.

LYSINE

Lysine is an essential amino acid that plays a vital role in supporting overall immune health. It is a popular option for managing + shortening the duration of viral flare-ups. It can be used as a targeted supplement during active viral infections or proactively throughout the cold + flu season. It pairs wonderfully with the Tri-Immune Boost!
