

GROUNDFIX
INFRASTRUCTURE & SURFACING

SITE MANAGER: SHERFORD

Sherford, Plympton, near Plymouth

Negotiable

Full time, Mon-Fri.

ABOUT GROUNDFIX

Groundfix is a specialist groundworks , civil engineering and surfacing contractor delivering high-quality infrastructure, surfacing and construction solutions across the South West. With a strong focus on safety, quality and reliability, our experienced team works collaboratively with clients to complete complex projects efficiently and to the highest professional standards..

Groundfix was jointly created by two of the region's most established and well-respected businesses, Champion Groundworks and Steve Hoskin Construction, bringing together decades of civils experience, a large directly employed workforce and significant in-house plant to support bigger projects.

THE ROLE

This is an exciting time to join the on-site team at Sherford as work on our latest phase of work (Phase 3AB) is well underway. This is our fifth phase of work on this expansive new community project and continues our legacy as the primary infrastructure contractor on-site since works began back in 2015.

-  You will be responsible for managing the day-to-day delivery of the project site team and operations, Client interaction, supervision, and working closely with the client's designers.
-  Develop project plans / programmes
-  Directing and supervising construction workers, subcontractors, and other personnel.
-  Ensure compliance with client deadlines, material deliveries, engineering, quality, safety and contractual requirements
-  Ensure effective cost control of the project
-  Maintain and manage the relationship with the client and stakeholders
-  Ensure successful project handover to the client, including O & M manuals, as-builts and the H & S file.
-  Implementing and maintaining quality standards throughout the construction phase.
-  Temporary Works co-ordination and weekly checking.

ABOUT YOU

We're looking for an experienced Site Manager with a hands-on approach, who is motivated and capable of managing multiple stakeholders across large-scale and complex infrastructure projects,

-  At least 3-5 years+ in a Site Manager role
-  Extensive knowledge of infrastructure works including bulk earthworks, drainage, services and road construction.
-  A proven track record and experience in meeting customer expectations and delivering projects both on time and within budget.
-  A high calibre individual who is committed to Health, safety and quality.
-  Excellent Health & Safety knowledge and awareness
-  SMSTS & CSCS qualified
-  Ideally (but not required) holds a Temporary Works Coordinator Ticket
-  Has good communication skills and is confident liaising with and dealing with the client, general public and third parties.

WHAT YOU'LL GET

-  Competitive salary (negotiable)
-  Company vehicle or car allowance
-  25 days holiday + bank holidays
-  Discretionary annual performance related bonus scheme
-  Secure, long-term employment within a financially stable business
-  Development and training opportunities
