Secure, long-term employment within a financially stable business

Potential use of a company vehicle

Development and training opportunities

You'll be part of a rapidly growing team supported by investment in the latest plant, machinery & technology

**GROUNDFIX**  
INFRASTRUCTURE & SURFACING

# THE ROLE

It's an exciting time to join Groundfix's surfacing team. With continued investment in plant, machinery and digital reporting, we're building the capacity to take on more work across the South West. You'll be part of a growing team that takes pride in quality workmanship and has the resources to deliver at scale.

You'll support the preparation, laying and finishing of surfacing works. Depending on your experience and the project, your duties may include:

-  Preparing work areas, materials and equipment before surfacing begins.
-  Assisting with the laying, raking and finishing of asphalt.
-  Operating hand tools and plant where trained and authorised.
-  Working alongside supervisors, machine operators and the wider site team to meet programme and quality requirements.
-  Following site safety procedures and reporting hazards or defects.
-  Keeping work areas and equipment clean, safe and ready for use.

## INTERESTED?

Please email your CV and Cover Letter to [surfacing@ground-fix.co.uk](mailto:surfacing@ground-fix.co.uk)

# ABOUT YOU

We welcome applications from experienced operatives and from candidates with transferable site experience who are keen to develop their surfacing skills.

-  Experience in asphalt surfacing or a similar construction role.
-  A reliable approach, good teamwork and attention to finish and quality.
-  Willingness to work outdoors, travel to sites across the region and adapt to project schedules.
-  A valid CSCS card and relevant plant or equipment qualifications are desirable.
-  A full UK driving licence is desirable.
