

Zena EdgeGrain™

An eco-friendly hardwood option made from 100% Oregon sourced and manufactured materials that's ideal for large-scale commercial and residential spaces.

Ideal for High Traffic Areas

Tiles are 7 1/2" x 15" and composed of individual 3/4" wide strips with a 7 mm wear layer and a 10mm (7/16") total floor thickness. Available in 11 native species.

An Eco-Friendly Hardwood Option

Zena EdgeGrain is a sustainable hardwood floor with no plywood core or glue, held together by aluminum wires underneath. Tiles can be installed linearly or in creative patterns. Highly stable, it requires no expansion gaps and produces virtually zero waste at the end of its lifecycle.
