WINDSHIELD PROTECTION FILM

WARRANTY & CARE INSTRUCTIONS

Thank you for choosing ExoShield SPRINT! Please follow these instructions to help maximize the life of your windshield protection. Keep this folder along with proof of purchase as it may be needed in the event of a warranty claim.

LET IT DRY

For the first 48 hours you may see some distortion due to moisture beneath the film. This is normal and will disappear as the water dries.

REGISTER YOUR WARRANTY

Your ExoShield SPRINT purchase comes with warranty protection against manufacturer's defects. See the inside of this card for details.

WINDSHIELD PROTECTION FILM CARE INSTRUCTIONS

ExoShield SPRINT is designed to be temporary protection for your windshield. The lifetime of ExoShield SPRINT will depend on many factors including climate, road conditions & driving behavior.

ExoShield SPRINT uses advanced **self-healing technology** to heal micro-scratches in the film. If at any time you feel your visibility is significantly compromised, be sure to remove the film immediately or take it to your local installer for inspection.

For best results, follow the basic Do's and Don'ts of windshield protection listed below, and review our website for more comprehensive care & maintenance instructions.

DOs...

- ✓ **Do** keep wipers free of dirt & debris by cleaning regularly with a damp cloth.
- ✓ **Do** hand wash regularly with soap and water or make sure to choose a touchless car wash.

DON'Ts...

- ✗ **Don't** pressure wash or use abrasive scrubbers on the windshield.
- ✗ **Don't** use ammonia-based glass cleaners or windshield washer fluids.
