

REDBACK

THE WORLD'S MOST ADVANCED IFV

Superior fire power | Best-protected IFV in its class | Powerful 1,000hp engine
High maneuverability ensuring low crew fatigue | Superior situational awareness

GENERAL PERFORMANCE

- Powerful 1,000hp engine supports great operational capability
- Rubber tracks & hydro-pneumatic in-arm suspension system for better handling and ride quality
- Situational awareness using see-through armour technology and team-integrated Battle Management System

Combat weight	43 tonnes
Crew	3
Dismounts	6-8
Max. speed	70 km/h
Cruising range	560 km

Vertical Obstacle 1m

Trench 3m

Side Slope 40%

Gradient 60%

FIRE POWER & PROTECTION

- ATGM, 30 mm cannon, 7.62 mm MG and remote weapon station integrated on world-leading combat vehicle
- Enhanced protection with configurable armour and Active Protection System
- Interoperable with NATO and US ammunition

Main armament	30 mm cannon
Aux. armament	7.62 mm MG
RWS	12.7 mm
ATGM	Integrated
Active protection system	Integrated

VARIANTS AND COMMONALITY

Hull Type 1		Hull Type 2	
Turreted		Non-Turreted
