### Connecting Every Part of Your Brokerage for Faster, Smarter Deals

LanternBRP™ unifies listings, clients, transactions, compliance, and market data in one AI-native platform that helps brokerages move faster, reduce risk, and grow revenue.

#### Listing Management

*How should I price this? When will it sell?*

Helps you price smarter, track listing performance, and move properties faster.

#### Client Relationship Tracking

*Who needs attention? What should I do next?*

Gives agents a clear view of every client to build stronger relationships.

#### Transaction Processing

*How do I close deals faster?*

Keeps transactions on track, reduces delays, and improves confidence in commissions.

#### Compliance Monitoring

*Is everything documented and audit-ready?*

Keeps records organized, surfaces risk early, and supports compliance across every transaction.

#### Market Analysis

*Where are the market opportunities?*

Turns market data into practical insight for pricing, positioning, and pipeline decisions.

#### Buyer-Seller Matching

*Who's ready to buy or sell?*

Helps identify likely matches faster so agents can create more opportunities with less guesswork.
