

How LanternBRP™ Powers the Future of Retail

65% of retailers cite poor inventory visibility as their top ops issue.

Source: Deloitte

Connecting Every Part of Your Retail Operation to Improve Visibility and Control.

LanternBRP™ unifies your data to reduce errors, optimize inventory, and improve performance in real time.

Theft & Loss Prevention

Where is loss happening?

Tracks inventory to detect loss and prevent theft in real time.

Inventory Management

What should I stock and when?

Predicts demand to optimize inventory and reduce stock issues.

Route Planning

How do I ensure on-time delivery?

Optimizes routes in real time to improve delivery performance.

Customer Profiles

Who is my ideal customer?

Builds real-time profiles to improve targeting and conversion.

Local Sourcing

Who can supply me quickly and reliably?

Identifies nearby suppliers to reduce costs and improve fulfillment.

Compliance & Audits

Am I audit-ready?

Automates audit logs and compliant tagging with full traceability.
