Serra do Caldeirão

PORTUGAL

In the Serra do Caldeirão, southern Portugal, our honey takes its character from the wild lavender that grows across this remarkable landscape. In this special landscape, where nature still follows its own rhythm, our bees collect nectar from wild lavender (rosmaninho).

Our honey comes from a single defined area and a single harvest. Unheated, unfiltered, and unblended, it retains its natural character, refined aromas, and silky texture.

Origin:	Serra do Caldeirão Portugal
Lavender:	82% wild

Mel de Pipeiros. One origin.
One harvest. Exceptional honey.

Monte dos Pipeiros

SERRA DO CALDEIRÃO

In the heart of the Serra do Caldeirão, surrounded by the pristine nature of Southern Portugal, lies Monte dos Pipeiros. This exceptional estate forms the origin and inspiration of our brand.

In close collaboration with a local master beekeeper, we select exceptional honey from a single defined area and a single harvest. With respect for nature, the bees, and centuries-old Portuguese beekeeping traditions. By not blending our honey with honey from other regions, we preserve the authentic character and unique qualities of its origin.

One landscape. One master beekeeper. One unique origin.

Our five essentials

01

One unique origin

Fully traceable.
Our honey comes from a single defined area in the Serra do Caldeirão. Thanks to the batch number on every jar, its origin and all characteristics can be found on our website.

02

82% wild lavender

An exceptional floral profile
An independent pollen analysis confirms that 82% of the identified pollen originates from wild lavender (rosmaninho).

03

Raw and unheated honey

Pure nature
Our honey is not heated and therefore retains its natural character, refined aromas, and silky texture.

04

Unblended and unfiltered

Without compromise
No mixing with honey from other countries. No ultrafiltration. Only pure honey that is true to its origin.

05

Mastery

Craftsmanship with respect for nature
Harvested with care by our local master beekeeper, with respect for the bees, nature, and centuries-old Portuguese traditions.

The art of exclusivity

A distinctive product deserves a carefully selected place on the shelf.

At Mel de Pipeiros, we believe exclusivity creates value. That is why we work with a select network of delicatessen shops, specialty retailers, premium food stores and hospitality partners.

Our approach is deliberately different. We do not sell directly through our website. Instead, we direct customers to our retail partners, giving them the opportunity to build sales and lasting customer relationships.

We also believe that presentation matters. Our elegant packaging, carefully developed brand identity and supporting promotional materials help retailers present Mel de Pipeiros as a premium product, whether on the shelf or as a gift.

We are not looking for the largest number of stockists. We are looking for the right partners, with whom we can build lasting and mutually rewarding relationships.

A personal note

Some places you visit. Others never leave you. For me, the Serra do Caldeirão is such a place. A landscape where silence is still truly silent, wild lavender covers the hills, and nature follows its own rhythm.

This is where Mel de Pipeiros began. What started as a fascination with this remarkable part of Portugal grew into something more. Together with a local master beekeeper, I set out to create a collection that reflects the character of this land, its traditions and its people.

Mel de Pipeiros is about more than honey. It is my way of sharing a place that continues to inspire me every day. Its silence, its natural beauty and the extraordinary things that come from it.

A little piece of Portugal, from a place that has become very dear to me.
