

PROCELL MICROCHANNELING POST-CARE

POST-CARE

IMMEDIATELY AFTER TREATMENT (0-90 MIN)

- Avoid direct sun exposure
- Do not apply any products to the treatment area – microchannels are temporarily open
- If you will be in the sun after leaving the studio, apply SPF 30-50 once 90 minutes have passed

BEGINNING 24 HRS AFTER TREATMENT

- Begin applying Procell Step 1 & 2 Aftercare Serums twice daily – morning and evening
- Step 1 – Cellular Renewal Serum: Dispense a few pumps and smooth evenly over treatment area. Wait 60-90 seconds to allow full absorption before proceeding.
- Step 2 – Healing Accelerator Serum: Apply evenly over treatment area after Step 1 has absorbed.
- Apply moisturizer if desired, then SPF 30-50 for morning application.
- Continue twice daily application until your provider advises otherwise. Long-term use is encouraged for facial treatments.

FOR 3 DAYS AFTER

- Take cold sore antiviral medication if applicable – continue as directed by your physician
- Discontinue any blood thinners as directed

FOR 1 WEEK AFTER

- No working out or submerging – you may shower
- No makeup on treatment area for minimum 24 hours – resume gently after
- Stay hydrated

FOR 2 WEEKS AFTER

AVOID:

- Retinoids, retinol, vitamin A, or skin-thinning products
- AHAs, BHAs, or chemical exfoliants at treatment area
- Laser or any other skin treatment in treatment area
- Tanning

BEGIN or CONTINUE:

- Collagen and vitamin C supplements *
- Drinking plenty of water daily
- Red light therapy to treatment area if possible *
- SPF 30-50 on treatment area whenever exposed to sunlight

ONGOING

- SPF 30-50 daily on treated area
- Continue Procell home care serums – long-term use delivers ongoing skin health benefits*
- Series of sessions spaced 2-4 weeks apart for optimal results
- Maintenance sessions every 6-8 weeks after initial series is suggested
- Contact your provider immediately if you experience abnormal pain, discharge, fever, or signs of infection
