NEXT STAGE

We're Based in Saudi Arabia & Contribute to Vision 2030

As Saudi Arabia continues to grow into a global business hub, it is attracting international investment, global summits, and more corporate events.

Local and international companies participate in these events as part of their business strategies and require proper brand activation and experience marketing.

Some Challenges they face during this process:

1. Last-Minute Decisions

Companies may confirm their event participation or hosting close to the deadline, and are left with little time to prepare.

2. Poor Execution Quality

Companies approve an impressive design for their booth, but the final result is shocking and disappointing; poor materials, rushed production, or weak attention to detail.

3. Unreliable Vendors

Companies often find themselves dealing with delays, unclear communication, or underdelivery from vendors.

BOOTH DESIGN & PRODUCTION

Creative design with high-quality execution.

EVENT MANAGEMENT & PRODUCTION

End-to-end management that ensures success.

CUSTOM MANUFACTURING

High-quality materials built to perfection.

LOGISTICS & INSTALLATION

On-time delivery and flawless installation.

SUPPORT SERVICES

Videographers, promoters, transportation, filming and more.
