

PRAGUE: Autonomous Future Summit

Where the people building the vehicles meet the people building autonomy.

7 OCTOBER 2027

EY Prague

ABOUT THE SUMMIT

Prague is where the people building the vehicles meet the people building the autonomous systems that will sit inside them. The autonomous transition is a generational reset for the entire automotive supply base.

Co-hosted with EY at their Prague office. 100 senior delegates from OEM leadership, Tier-1 suppliers, technology providers, ministries, advisory and the capital backing the transition.

WHO ATTENDS

- **OEM leadership**
Strategy, innovation and product leaders from Europe's automotive manufacturers navigating the autonomous transition.
- **Tier-1 suppliers**
Companies adapting their products, capabilities and partnerships for the autonomous era.
- **Technology providers**
AV platforms, software companies, AI providers and mobility innovators.
- **Capital & advisory**
Investors, corporate venture teams, consultants and advisors supporting industry transformation.

WHAT YOU'LL LEAVE WITH

- 1 A clearer view of how autonomous technology is reshaping the automotive value chain.
- 2 Direct access to senior decision-makers across OEMs and Tier-1 suppliers.
- 3 Insight into emerging partnership models between automotive and technology companies.
- 4 A better understanding of where investment, acquisition and growth opportunities are developing.
