AUTONOMY SUMMITS 2027

The Autonomous Future Summit Prague

The European summit where the automotive industry turns the autonomous shift into its next chapter — new vehicles, new segments, new customers.

7 OCTOBER 2027 • EY PRAGUE, CZECH REPUBLIC

PRAGUE: Autonomous Future Summit

www.autonomysummits.com

WHY PRAGUE

Central Europe's automotive heartland — and the right partners.

CEE's automotive heartland

Auto is roughly 10% of Czech GDP — the highest share in Europe. Škoda, Hyundai and Toyota all manufacture here, anchoring a dense Tier-1 supplier base across the CEE region.

Hosted by EY

EY hosts at its Prague office. Institutional credibility, an advisory bench with sector depth across automotive, transport and logistics, and a senior client room that's hard to convene any other way.

AutoSAP as Network Partner

The Automotive Industry Association of the Czech Republic opens its member base of regional OEMs, suppliers and regulators. Official endorsement subject to AutoSAP board approval.

Builds on London's track record

Joins Autonomy's established European AV Summit in London (200 delegates, sold out, 27 countries). Curated, not expo — ~100 senior decision-makers, pre-summit speaker dinner, recorded for distribution.

AUTONOMY SUMMITS

Three summits. One series. A proven European platform.

Prague joins Autonomy's established London summit and the new Munich logistics summit — one website, one identity, three rooms that don't overlap. A relationship started at one opens onto the other two.

LONDON

Autonomous Cities Summit

Moves people. Robotaxis, buses, shuttles, urban PTAs and PTOs.

March 2027 — flagship, established.

MUNICH

Autonomous Transport & Logistics Summit

Moves goods. Trucks, warehouse & yard robotics, port and airport ground operations.

13 May 2027 — co-produced with UnternehmerTUM.

PRAGUE

The Autonomous Future Summit

Builds the vehicles. The CEE supply base, capital and M&A around the autonomous shift.

07 October 2027 — this summit.

WHY NOW

Europe's regulatory window opens in 2026. Prague convenes the industry ascommercial deployment begins.

2025 FOUNDATION

Framework drafted

EU Automotive Action Plan published (March 2025). Unlimited series approvals begin for automated parking systems.

Member State alignment on testing procedures.

2026 INFLECTION

Approvals expand. Testing opens.

Hub-to-hub autonomous freight approvals. Harmonised public-road testing procedures across Member States.

Three+ large-scale cross-border AV testbeds launch.

2027 DEPLOYMENT

Industry positions for the next generation.

Robotaxi services launch across European cities. Autonomous freight corridors enter commercial service. The CEE supply base positions to manufacture the next generation of vehicles. Prague convenes Autumn.

Source: European Commission Automotive Action Plan, COM(2025) 95 final.

WHY PARTICIPATE

Curated for transactions. Built on a model that works.

01

Curated room

~100 senior decision-makers across CEE automotive, capital, advisory and regulators. Every conversation in the room is qualified.

- Regional OEM leadership
- Tier-1 suppliers
- Strategy & transformation
- Ministries & regulators
- Risk & insurance

02

Speaker dinner

Pre-summit dinner with speakers, sponsors and key delegates the evening before the summit. The room where the relationships start.

- ~50 senior guests
- Speakers, sponsors, key buyers
- Pre-seated by partnership tier
- CEE industry leadership in one room

03

Conference

Plenary keynotes, panels and curated breakouts at EY Prague. Recorded for YouTube and partner channels — content reaches well beyond the room.

- Plenary keynotes
- Five themed panels
- Structured networking breaks
- Recorded content asset for sponsors

PROGRAMME

Five themes. One room. One day.

01	**Manufacturing the next generation**	What the CEE supply base can build for the autonomous era — robotaxis, autonomous trucks, new platforms. Where established capability meets new demand.
02	**New segments for the CEE base**	Defence, robotics, industrial autonomy and adjacent vehicle markets. The segments the European manufacturing base is best placed to win.
03	**Capital, M&A and partnerships**	Where the money flows in the autonomous shift. PE, corporate VC, sovereign capital, strategic acquirers — and the deals reshaping the European supply base.
04	**The autonomous supply chain**	Tier-1 evolution, software-defined vehicles, risk and liability in autonomy. The supplier base in transition.
05	**The regulatory race**	EU harmonisation in 2026, the UK Automated Vehicles Act, and what comes next country by country.

Final agenda confirmed in collaboration with EY and AutoSAP.

WHO'S IN THE ROOM

Industry, capital and advisory — in balance.

The room is curated for transactions and partnerships. No expo floor, no padding.

Buyers

- Regional OEM leadership
- Tier-1 suppliers
- Strategy & transformation
- Ministries & regulators
- Risk & insurance

Sellers

- AV technology platforms
- AI & software
- Advisory & consultancy
- Investors & capital
- AV operating systems

€10,000

- 2 panel slots — topics of your choice
- Official partner status
- 4 seats at the VIP dinner
- 6 day-of summit tickets
- Branding on all marketing material
- Logo or video on summit screens
- Recorded panel videos for own use

WHAT YOU WALK AWAY WITH

The deliverables behind a Headline partnership.

Hard outputs, not aspirations. Built on the same model that produced documented deal flow for London sponsors.

100

senior decision-makers

The room

Regional OEMs, Tier-1 suppliers, capital, advisory and regulators — curated, C-suite weighted,every seat qualified.

12

named hosting seats

Direct access

6 invitation-only speaker dinner seats + 6 day-of summit tickets for your clients and prospects.

2

panel positions

Stage time

Topics of your choice. Recorded for post-event distribution on YouTube and your own channels.

6+

months of pre-event reach

Brand co-marketing

Logo across the website, LinkedIn campaign, email list and content programme from launch to event.

BUILT BY

Two organisations that know the room.

AUTONOMY

Producer & curator.

Producers of the European AV Summit, London — Europe's established, sold-out AV summit. End-to-end summit delivery: programme curation, production, sponsor acquisition and audience development.

EY

Host partner.

EY hosts the summit at its Prague offices. Brings institutional credibility, sector advisory across automotive, transport and logistics, and a senior client room. Co-curates the speaker line-up and provides venue, catering and AV in-kind.

AUTOSAP

Network partner.

The Automotive Industry Association of the Czech Republic. Opens its member base — Czech OEMs, suppliers and regulators — and contributes local and regional speakers. Official endorsement subject to AutoSAP board approval.

Secure your partnership.

Headline, Content and Delegation packages are limited and allocated first-come.
