

CERTIFIED MAINTENANCE INSPECTION

**Driven by service.
Built for reliability.
Helping you go further.**

We provide comprehensive certified truck maintenance inspections and the repairs engineered to optimize fleet performance and minimize downtime.

WHAT DO YOU GET WITH A TRUCK CMI?

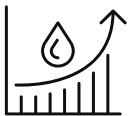

Full Bumper to Bumper wash

Prior to your inspection, your truck will receive a thorough cleaning, ensuring it returns to the road in a clean and professionally maintained condition.

SGI-Certified Safety Inspection

Wheels-off safety inspection (includes fault scan of all control modules); Provincial decal issued upon approved repairs completion.

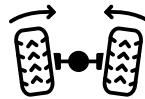

Oil Analysis

Sample the engine and transmission to detect excessive wear, contamination or fuel dilution. Results are provided.

HVAC Service

Full inspection of heating, ventilation and air conditioning system.

Wheel Alignment

Our heavy duty alignment machine will take measurements at all your wheel ends to ensure you're driving straight down the road.

Detail Report with Photos

Comprehensive report provides in-depth view of wear items to plan maintenance and repairs before they cost you downtime.

Customized Maintenance Plan

A tailored maintenance and repair plan to address any items found on the inspection and future preventative maintenance.

Priority Service

1-year program benefits provides priority service, response to service within 24 hours in the province, and towing up to 100 km to our shop if needed.
