With Hexmodal, your compliance runs on autopilot

Someone on your team checks your life safety devices by hand every month. With Hexmodal, devices check themselves, create reports, and tell you instantly when something's wrong.

Smart devices

We build e-lights, exit signs & sensors.

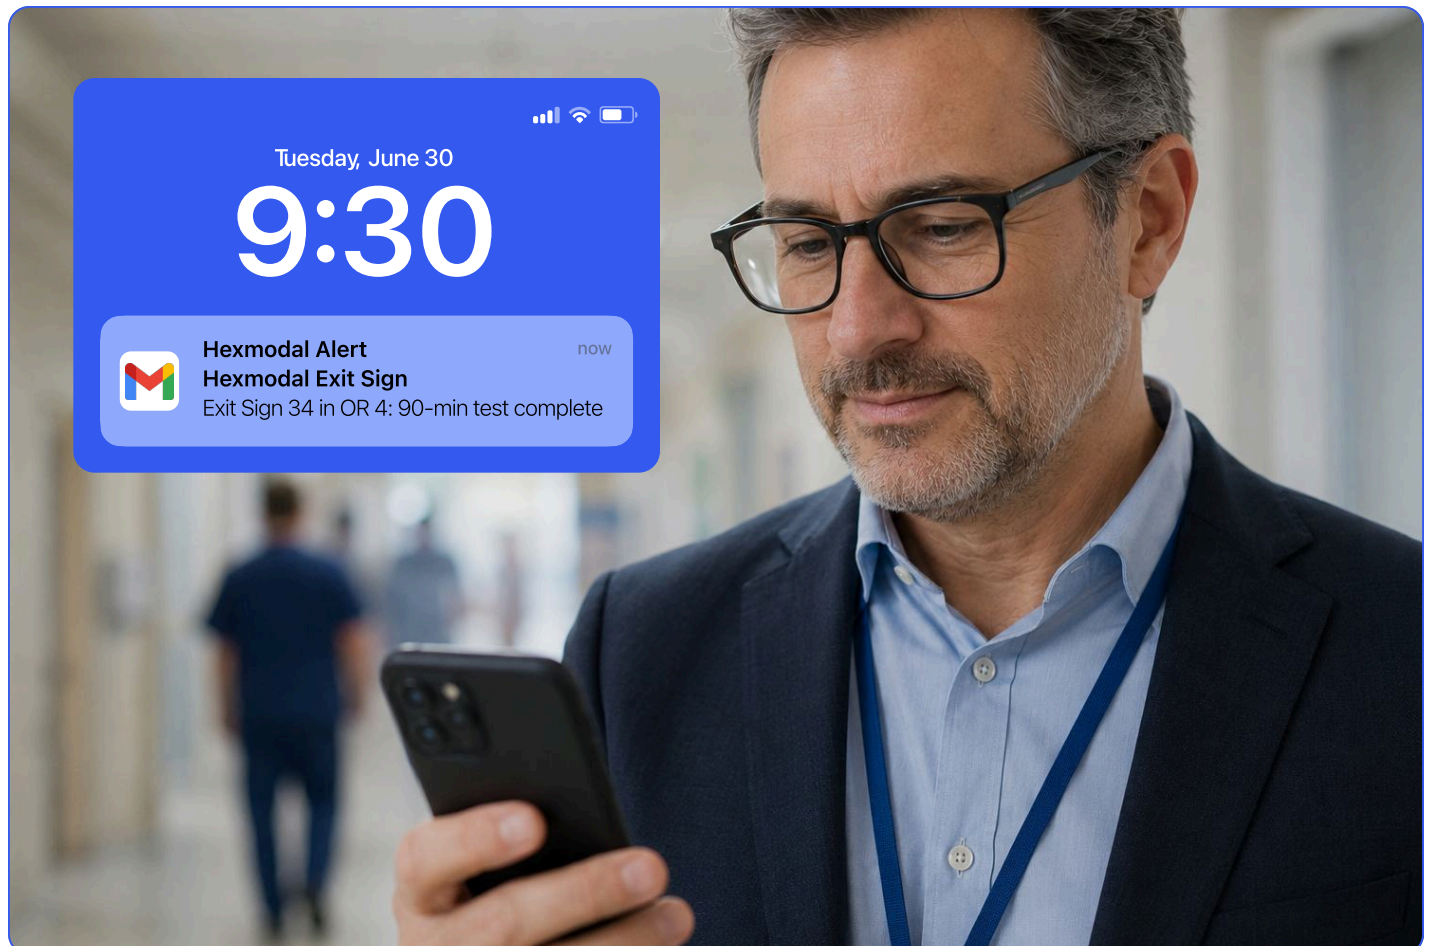

No IT needed

They don't use Wi-Fi to connect.

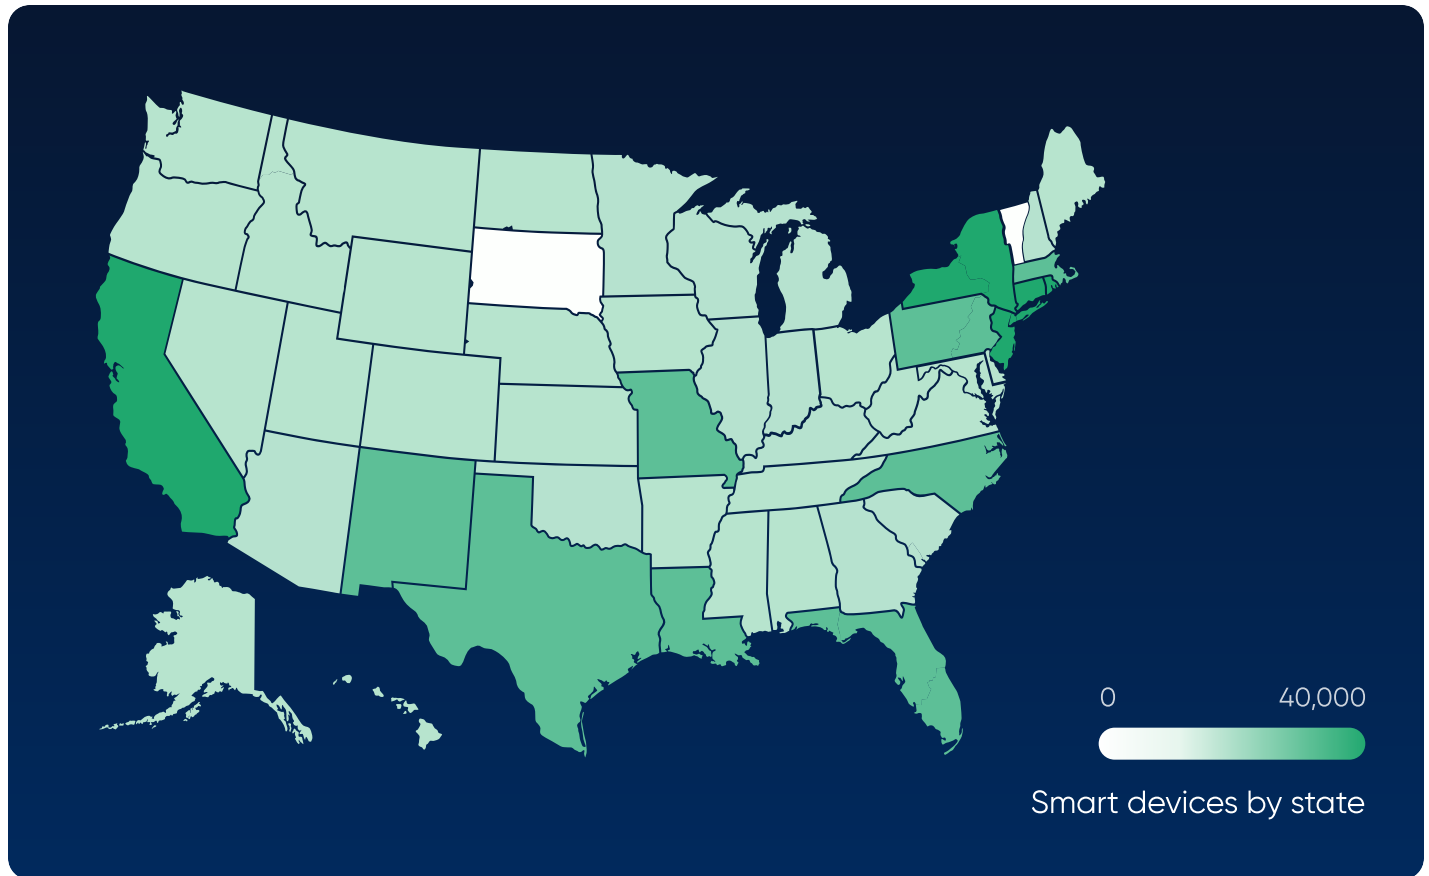

24/7 compliance

You get a notification the instant one fails.

Most major US health systems use Hexmodal

3,800 facilities nationwide already rely on our automated life safety devices to improve compliance and save time.

7,000+

Smart Emergency Lights

No Wi-Fi, no ethernet, no IT

Devices install in minutes, and every device connects to a Cellular Gateway via low frequency radio. No IT required.

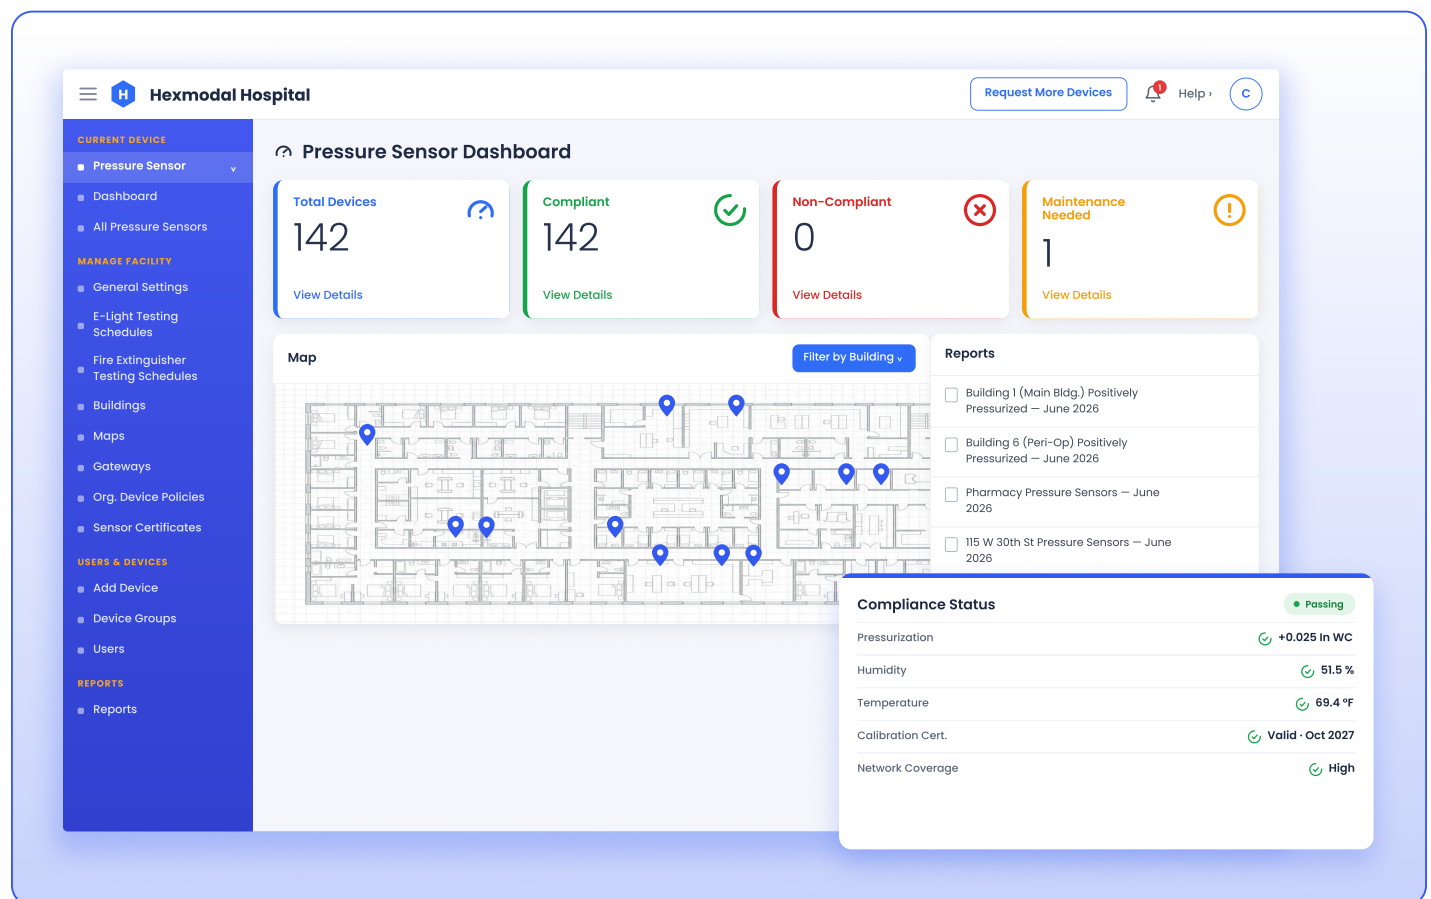

250,000 sq ft

INDOOR COVERAGE PER GATEWAY

Manage your facility from one dashboard

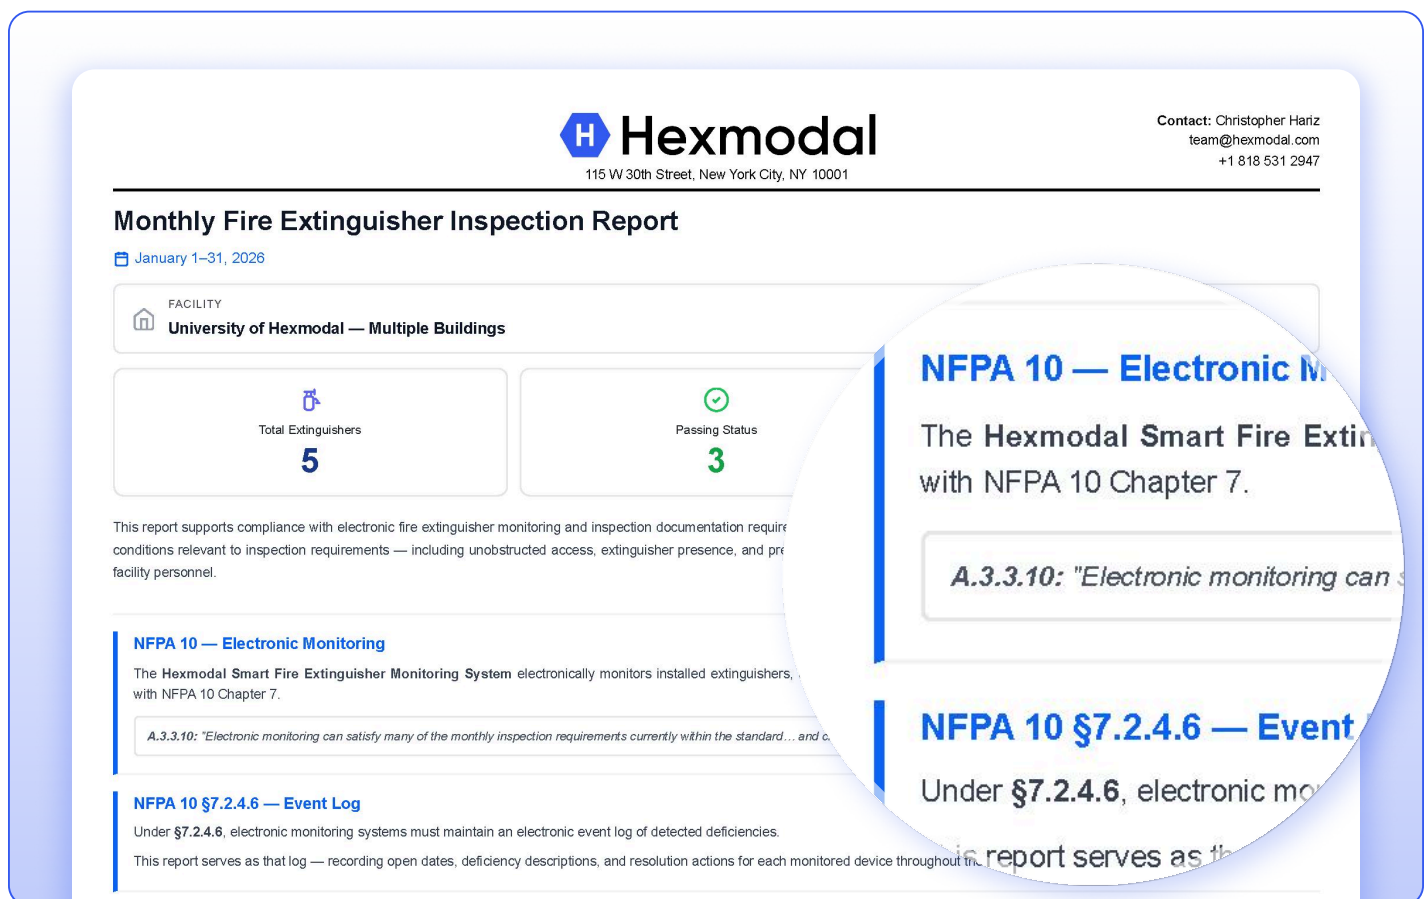

All your lights, extinguishers and sensors across every building, mapped to your floor plan with pass, fail, or maintenance needed status. One view for all your facilities.

- ✓ **Interactive floor plan**
Every device pinned to its exact spot, across every building.
- ✓ **Instant failure alerts**
Text, phone call or email. You know as soon as there's a problem.
- ✓ **Checks run in the background**
Tests and monitoring data gathered automatically.
- ✓ **CMMS integration**
Push work orders into the system your team already uses.

Compliance reports that write themselves for your AHJ

No more digging through binders, hoping every test was done. Hexmodal runs tests and creates reports that are formatted to be accepted by your AHJ.

- ✓ **Meets JC & DNV standards**
Hexmodal reports have been used for hundreds of surveys.
- ✓ **Every detail included**
Pass/fail results, corrective actions, excursion events, and more.
- ✓ **No pencil whipping, no gaps**
Every test is timestamped, complete and defensible.
- ✓ **Searchable history**
Pull any report for any device in any building or date.

Smart E-Lights & Exit Signs

Replace your existing fixtures one-for-one with Hexmodal's smart lights at no upfront cost.

- ✓ Automated monthly and annual NFPA 101 tests
- ✓ Instant alert the moment a test fails
- ✓ Installs just like a standard emergency light or exit sign

Get monthly & annual NFPA 101 and CMS-compliant reports

- ✓ **CMS-compliant reports**
Generated automatically and stored online.
- ✓ **Instant failure alerts**
By text, phone call, or email, the moment a test fails.

- ✓ **Mapped to your floor plan**
Every fixture located and tracked continuously across every building.
- ✓ **Detailed data on every test**
Initial and final voltage readings logged with each result.

Smart Fire Extinguisher Monitor

A sensor that monitors gauge pressure, weight, location, and obstruction around the clock.

- ✓ Works with your current fire extinguishers
- ✓ Automates monthly inspections for all 4 requirements of NFPA code
- ✓ Meets ADA 4" protrusion requirement
- ✓ Alerts for pressure loss, tampering, or obstruction

LIFETIME
WARRANTY

HEX-F

Fits inside
existing cabinets

Can be installed directly on the wall or inside an existing cabinet. Battery powered for 3-5 years.

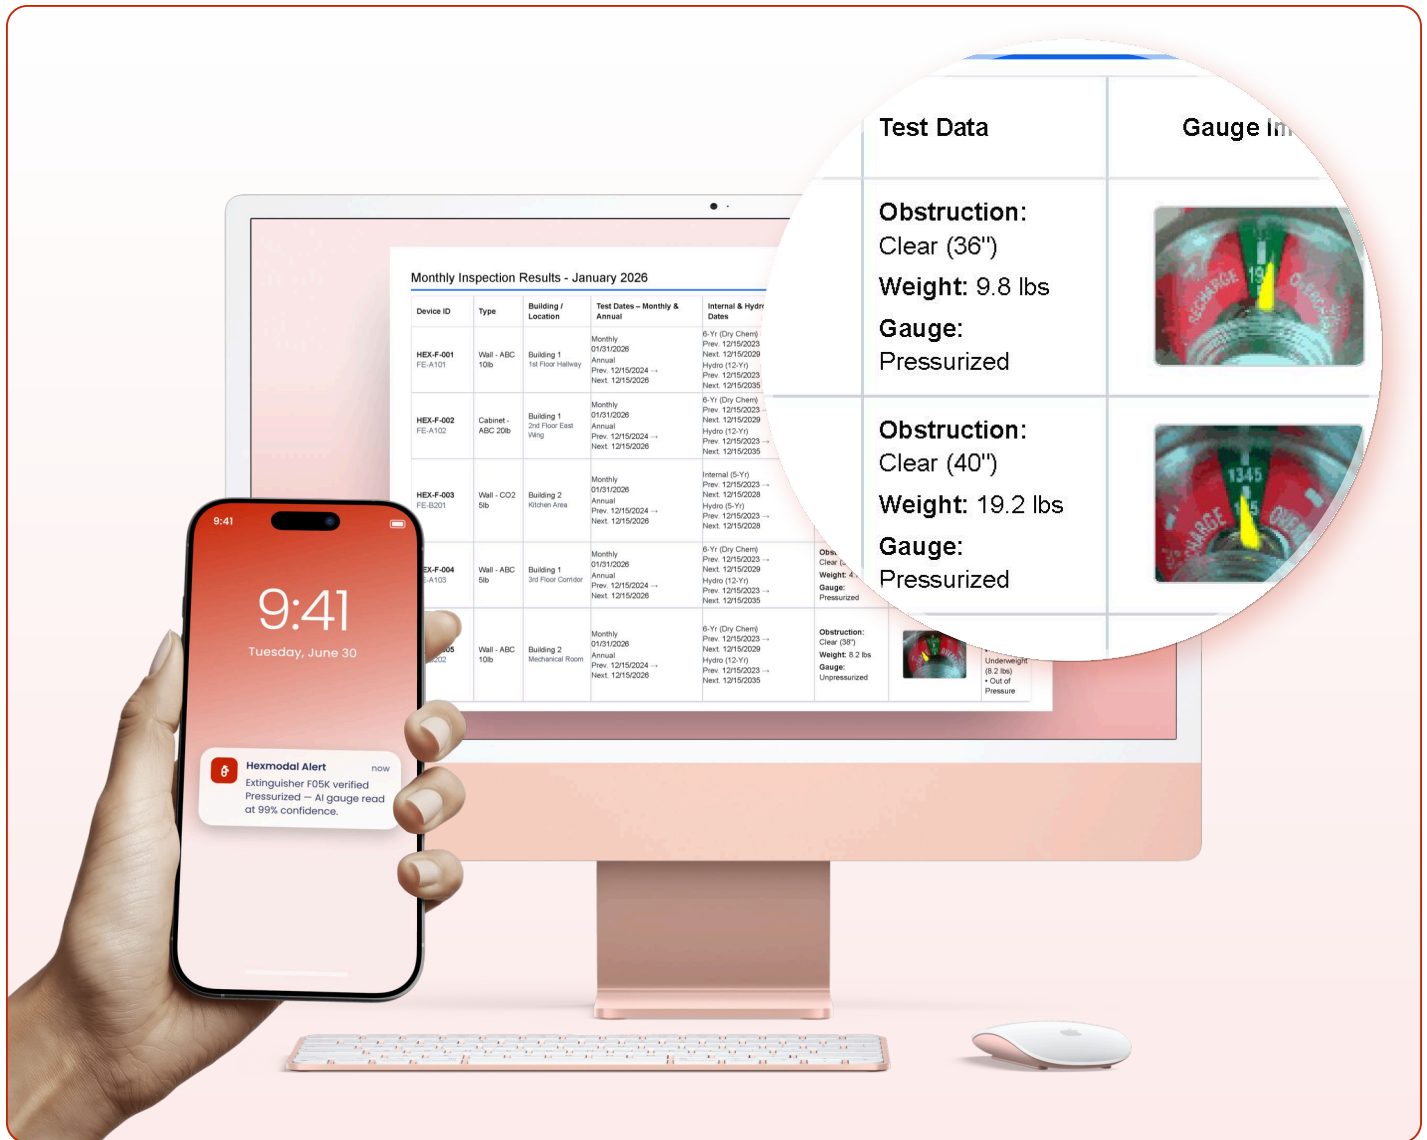

Optical Sensor – Reads the gauge and adds a photo to every monthly report

Smart Hook – Weighs the extinguisher, confirms its location, and flags tampering

Obstruction Sensor – Continuously checks that the path stays clear

Extinguishers Supported: CO2, ABC, Halotron, Class K

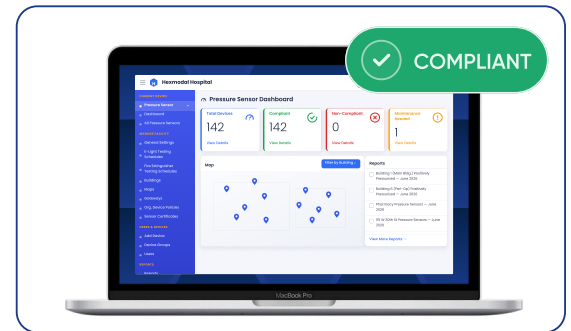

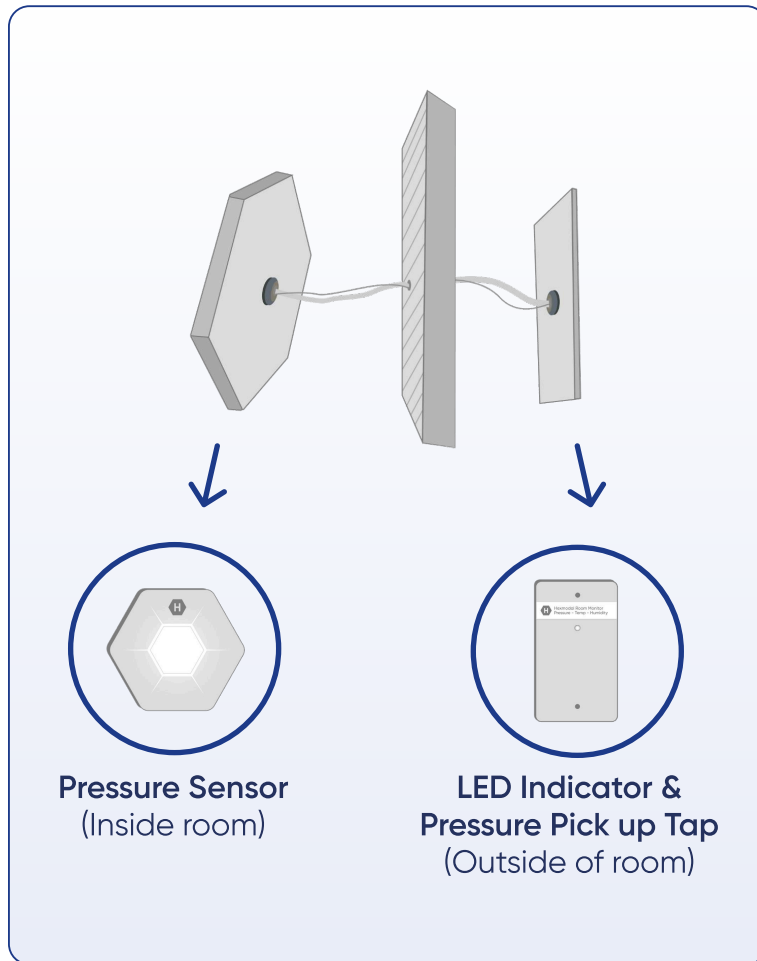

Auto-generated monthly NFPA 10 and CMS-compliant reports

- ✓ **Automated reports**
CMS-compliant, generated automatically, stored online.
- ✓ **Gauge status included**
A photo of every gauge timestamped for every report.
- ✓ **Constant monitoring**
All sensors can continuously monitor for instant updates.
- ✓ **Fast alerts**
By text, phone call, or email when an extinguisher needs attention.

Smart Room Pressure Monitor

Continuous monitoring for isolation rooms, ORs, labs and more, with alerts delivered to the right person, at the right time.

- ✓ 10-minute install with no power or data line
- ✓ NIST-traceable, free recertification
- ✓ At-a-glance light shows in or out of range
- ✓ Runs 3-5 years on a single battery

HEX-T-R

Smart Room Temp. &
Humidity Sensor

HEX-P

Smart Room Temp.,
Pressure, & Humidity Sensor

HEX-D

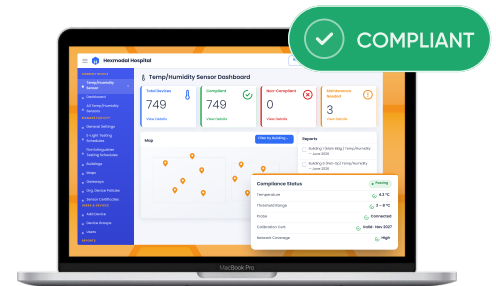

Smart Door
Position Sensor

Smart Cold Storage Monitors

Continuous temperature monitoring for refrigerators, freezers, and ultra-low storage, replacing clipboards on fridge doors.

Glass Bead Buffer Bottle

- ✓ Every unit covered from fridges to ultra-low freezers
- ✓ Customizable alert policy to prevent nuisance alarms
- ✓ NIST-traceable, free recertification
- ✓ Runs 3-5 years on a single battery
