

DEEP BIJOU IP65

INSTALLATION INSTRUCTIONS | MARCH 2023

Driver must be powered off before connecting the cables.

Before connecting the luminaire/LED module to the driver please make sure the driver is not powered but disconnected from the mains. The driver can only be powered when the luminaire/LED module is already connected. Disregarding this instruction might damage or even destroy the luminaire/LED module.

DIMENSIONS

MOUNTING INSTRUCTION

- 1 Make a hole in the ceiling according to the prescribed dimensions.
- 2 Connect the luminaire to a driver. Driver is not included.

3 POWER CONNECTION

Always use a driver according to the specifications of the LED module/luminaire and IP rating. Connect the wires with the waterproof connections. Please see the detail method in the separate instruction sheet of waterproof connection.

Single connection

Multiple connection

- 4 For wire spring version: Push the springs up and insert the fixture in the ceiling hole.
For blade spring version: Insert the fixture in the ceiling hole.
