## BoodleBox AI Platform Launches Campus-Wide

[University Name] is partnering with BoodleBox to provide all students and faculty with unlimited access to enterprise-grade AI tools through a secure, education-focused platform. This campus-wide initiative represents our commitment to preparing our community for an AI-enabled future.

What BoodleBox offers:

- **For Faculty:** Tools to enhance curriculum development, create personalized learning pathways, and evaluate AI-assisted work
- **For Students:** Unlimited access to leading AI models (including GPT, Claude, Gemini, and Perplexity) to develop essential AI skills and collaborate on coursework
- **For Everyone:** A secure environment to practice responsible AI use with built-in sharing and transparency features

BoodleBox was developed in partnership with higher education institutions and was selected by faculty, staff, and students as their GenAI platform of choice for responsible teaching and learning with AI.

To get started, log in with your [University Name] email address via SSO at [box.boodle.ai](https://box.boodle.ai)!

Questions? Contact [Campus AI Representative] or visit [boodlebox.ai](https://boodlebox.ai) to learn more.
