02 · WHEN YOU BREAK EVEN

37	256	1,099
cups a day	cups a week	cups a month

That is one cup every 19 minutes on a twelve-hour day. At £4.50 a cup it falls to about 27 a day; at £2.50 it rises to about 58.

03 · WHAT YOU EARN BEYOND THAT

£4,271
ESTIMATED PROFIT A MONTH AT 100 CUPS A DAY

77%
GROSS MARGIN ON EVERY CUP

After 36 months the finance ends and the machine is yours. The £2,099 monthly payment stops, and the £25,189 a year it was costing stays in the business.

All figures exclude VAT except cup prices, and are estimates for planning, not a guarantee of return. Based on £3.50 a cup including VAT (£2.92 excluding), 30 trading days a month and a twelve-hour trading day. Consumables at 67p a cup, shown at break-even sales in the monthly cost and at full volume in the profit figure. Floor space at a typical London rate. VAT on the machine is reclaimable. Delivery and installation (£800 to £1,500, one-off), staff time for the 20-minute daily clean, insurance and any host revenue share are excluded.
