

SURFATA[®] AG 5064

Composition

Blend of ethoxylated natural fatty alcohols.

Application

SURFATA[®] AG 5064 is a nonionic, biodegradable, low irritancy, emulsifier for vegetable oil, OD and EC systems.

Typical Properties

Appearance 25 °C	Colorless/hazy to yellow liquid.
Flash point, °C	> 100
pH 1% aqueous	5,0 - 8,0
Water, %	1,0

Values indicated in this data sheet describe typical properties and do not constitute specification limits. Please refer to product specification sheet.

Application Areas

- Formulations of pesticides
- Adjuvants

Features and Benefits

- Compatibility with broad range of active ingredients.
- OMRI available.
- Naturally derived surfactant.

Incorporation and Dosage

For optimum performance should be used in the concentrations indicated below. Optimal levels are determined through a series of laboratory tests.

% based upon total formulation	1,0 to 10
