

SURFATA® PTI 77069

Composition

Modified polymer, silicone free.

Application

SURFATA® PTI 77069 defoamer for aqueous systems effective against foams and bubbles in process and application. Also acts as leveling agent.

Mode of Action

SURFATA® PTI 77069 Act in interface of the liquid and air, preventing the foam formation.

Typical Properties

Density, 25 °C (g/ml)	1,00
Non-volatile matter, %	100
Flashpoint, °C	> 100

Values indicated in this data sheet describe typical properties and do not constitute specification limits. Please refer to product spec sheet.

Application Areas

Pigment concentrates	vv
Coil coatings	vv
General Aqueous systems	vv
Automotive coatings	vv
Architectural coatings*	vv
Print Inks	vv
Industrial coatings	vv
Wood and furniture coatings	vv
UV/EB coatings	vv

vv Recommended v Suitable

* Particularly aqueous enamel and high gloss systems.

SURFATA® PTI 77069

Features and Benefits

- High efficiency against bubbles and foam in the process and application.
- Increases the leveling.
- Silicone and mineral oil free.
- Does not reduce the gloss.
- Greater compatibility with systems.
- Does not cause craters or other defects in the film.
- Can be added at any stage of the process.

Incorporation and Dosage

SURFATA® PTI 77069 can be incorporated during any stage of the production process.

% additive based upon total formulation	0,1 – 2,0
--	-----------

Transport and Storage

Keep in a dry, cool and well-ventilated place. Keep product away from heat and sources of ignition.

Store in original containers.

Safety and Handling

Please refer to product MSDS.
