The EASYkleen Pro S-15, incorporating the unmatched power of inverter technology and simplicity of the EASYkleen brush. Using the same superior inverter technology of the mepBLITz DC-i5 and capable of an impressive 130 amps, the EASYkleen Pro S-15 is the most powerful “dipping” unit worldwide. This unit incorporates a power level dial which gives the user ultimate control in determining the output, which can be easily adjusted depending on a range of variables such as material thickness and desired finish. With a range of brush consumables to suit every user’s needs, including the Pro 15-40 brush which takes inspiration from the unrivaled M-Style brushes of the DC-i5. Make sure you see this unit in action before purchasing your next weld cleaner, as you will not be disappointed.
