

The Compliance Cost of Unverified AI Code

AI accelerated code creation.
It did not accelerate verification.

UP TO **90%** TESTING TIME REDUCTION FORRESTER

217% 3-YEAR ROI FORRESTER

46% IMPROVEMENT IN CODE PUSH FREQUENCY ESG

What makes it defensible

No training on customer data. | Global data residency options.

Trusted by the world’s largest enterprises

Walmart **BANK OF AMERICA** **Microsoft** **splunk>**

“Using Sauce Labs saves us a lot of time. We can now focus more on doing creative work and understand our product better during exploratory testing, for example...Our goal is to give QA engineers in each of our teams the ability to test the features built by that team in an automated way. We’re happy to be on that journey with Sauce Labs.”

Martyna Wojna **eMoney** QUALITY ASSURANCE (QA) ENGINEER
