# SPINTA BIO CHAIN

Product Code: SP-AG-BIO

**Industrial use, protective chainsaws**

CLP STATUS: NOT CLASSIFIED AS DANGEROUS | Hazard pictograms: none | Annex XVII special provisions: none

## SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

**1.1 Product identifier:** Mixture identification. Trade name: SPINTA BIO CHAIN. Product code: SP-AG-BIO.
**1.2 Relevant identified use:** Industrial use, protective chainsaws.
**1.3 Supplier:** SPINTA ITALIA S.r.l., Viale C. Battisti 15, 27100 Pavia (PV), Italy. Tel. +39 331 801 9355. SDS contact: info@spinta-lub.it.
**1.4 Emergency telephone:** CAV Centro Nazionale di Informazione Tossicologica - Pavia, Tel. +39 0382 24444; CAV Azienda Ospedaliera A. Cardarelli - Napoli, Tel. +39 081 5453333.

## SECTION 2: HAZARDS IDENTIFICATION

**2.1 Classification:** Direct and prolonged contact can cause eye and skin irritation. Hazards reported in section 2 refer to the product in the finished form. Hazards are reduced if the product is used in water emulsion. The product is not classified as dangerous according to Regulation EC 1272/2008 (CLP). No other hazards.
**2.2 Label elements:** Hazard pictograms: None. Hazard statements: None. Precautionary statements: None. Special Provisions: None. Special provisions according to Annex XVII of REACH and subsequent amendments: None.
**2.3 Other hazards:** No PBT, vPvB or endocrine disruptor substances present in concentration >= 0.1%. No other hazards.

## SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

**3.1 Substances:** Identification of the substance: Trade code SP-AG-BIO. None.
**3.2 Mixtures:** N.A.

| Item | Information |
|---|---|

3.1 Substance identification: Trade code SP-AG-BIO. None. | 3.2 Mixtures: N.A.

## SECTION 4: FIRST AID MEASURES

**4.1 Skin:** Injuries due to high-pressure jets may require prompt surgical intervention and possibly steroid therapy to minimise tissue damage and loss of function. Accidental injection under the skin can occur without visible external damage; take the injured person to hospital as soon as possible and do not wait for symptoms. Remove contaminated clothing and wash thoroughly with water and soap. Call a doctor if necessary.
**Eyes:** Wash immediately with plenty of water for several minutes with eyelids open. Seek medical advice; call a doctor immediately if pain and redness persist.
**Ingestion:** Do NOT induce vomiting under any circumstances. Obtain medical examination immediately.
**Inhalation:** After high vapour/mist exposure, remove to fresh/well-ventilated air, keep warm and at rest; seek medical attention if necessary.
**4.2 Symptoms/effects:** None reported.
**4.3 Immediate treatment:** Fresh air/ventilation after high vapour or mist exposure; medical attention if necessary.

## SECTION 5: FIREFIGHTING MEASURES

**5.1 Extinguishing media:** Suitable media: class B extinguishing media, carbon dioxide, dry chemical powder, foam, sand, earth, water and CO2. Avoid water jets; use water only to cool the surface of containers exposed to fire. No other unsuitable media are specified.
**5.2 Special hazards:** Avoid breathing combustion smoke/gases. Fire may form chlorine-, sulfur- and nitrogen-containing compounds, unburnt hydrocarbons and other potentially dangerous compounds. Burning produces heavy smoke.
**5.3 Firefighters:** Cool heat-exposed containers; use suitable breathing apparatus and full protective suit. Collect contaminated extinguishing water separately; do not discharge to drains. Move undamaged containers from hazard area if safe.

## SECTION 6: ACCIDENTAL RELEASE MEASURES

**6.1 Personal precautions:** Avoid skin/eye contact; use PPE. For relevant spills, especially confined areas, avoid vapours, ventilate or use respiratory protection. Remove persons to safety. See Sections 7 and 8.
**6.2 Environmental precautions:** Prevent dispersion to soil, sewers and surface water. Retain contaminated wash water. Inform competent authorities if waterways, soil or drains are affected. Suitable uptake material: organic absorbent, sand.
**6.3 Containment/clean-up:** Spilled aerosol may ignite under suitable conditions. Contain large spills; absorb small spills with earth, sand or inert absorbent; transfer to suitable impermeable containers; dispose according to regulations; wash with plenty of water.
**6.4 Reference:** See Sections 8 and 13.

## SECTION 7: HANDLING AND STORAGE

**7.1 Safe handling:** Avoid direct contact and inhalation of aerosol/vapour. Ensure adequate ventilation, especially if confined. Do not smoke/use open flames; avoid sparks/ignition sources. Keep containers closed. Avoid skin/eye contact. See Section 8. Do not eat or drink while working.
**7.2 Storage:** Keep in original closed containers with leakage control/containment, in a cool, adequately ventilated place away from heat, ignition sources and sunlight. Avoid electrostatic charge. Keep away from food, drink and feed. Incompatible materials: none in particular.
**7.3 Specific end uses:** None in particular.

## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

**8.1 Control parameters:** No specific requirements in normal conditions of use. Avoid generation/diffusion of mist or aerosol using machine protection and localized ventilation/aspiration. No occupational exposure limit available. DNEL: N.A. PNEC: N.A.
**8.2 Eye protection:** Wear safety glasses whenever contact with the product is possible (UNI-EN 166). Not needed for normal use; operate according to good working practices.
**Skin/body:** Use full suit and apron in suitable material where needed; change contaminated clothing immediately and wash carefully before reuse. Maintain good personal and work-clothing hygiene (UNI-EN 465/466/467). No special precaution is required for normal use.
**Hands:** Wear work gloves resistant to mineral oils or solvents (e.g. neoprene, nitrile or PVC), preferably lined; replace when signs of wear are visible and use after adequate hand cleaning. Barrier creams may be useful for short contacts. Glove choice depends on use conditions and supplier information (UNI-EN 374). Not needed for normal use.
**Respiratory:** If operational conditions and other controls are insufficient to respect exposure limits, use respiratory protection with filter for organic vapours and dusts/mists (e.g. activated-carbon mask). Not needed for normal use.
**Thermal hazards / environmental exposure / engineering controls:** None reported.

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

| Property | Value / method |
|---|---|
| Physical state | Liquid |
| Colour | Amber |
| Odour | Characteristic |
| Melting/freezing point | -5°C; ASTM D97 |
| Boiling point/range | Not defined / not available |
| Flammability | N.A. |
| Explosion limits | Not defined / not available |
| Flash point | 280°C; ASTM D92 |
| Auto-ignition temperature | Not defined / not available |
| Decomposition temperature | Not defined / not available |
| pH | Not defined / not available |
| Kinematic viscosity (9.1) | N.A. |
| Solubility in water / oil | Insoluble / Not defined or not available |
| log Kow | Not defined / not available |
| Vapour pressure | Not defined / not available |
| Density | 0.900 kg/dm³; ASTM D4052 |
| Relative vapour density | Not defined / not available |
| Particle size | N.A. |
| 9.2 Viscosity | 40.0 cSt @40°C; 6.0 cSt @100°C; ASTM D445 |

## SECTION 10: STABILITY AND REACTIVITY

**10.1 Reactivity:** Avoid strong acids, bases and strong oxidizers. Stable under normal conditions.
**10.2 Chemical stability:** Stable at room temperature / under normal conditions.
**10.3 Hazardous reactions:** None.
**10.4 Conditions to avoid:** Stable under normal conditions.
**10.5 Incompatible materials:** None in particular.
**10.6 Hazardous decomposition products:** None.

## SECTION 11: TOXICOLOGICAL INFORMATION

**11.1 CLP hazard classes:** Substance: acute toxicity, skin corrosion/irritation, serious eye damage/irritation, respiratory/skin sensitisation, germ-cell mutagenicity, carcinogenicity, reproductive toxicity, STOT-single exposure, STOT-repeated exposure and aspiration hazard: all not classified, based on available data, classification criteria are not met.
**11.2 Other hazards:** No endocrine-disrupting substances at concentration >=0.1%.

## SECTION 12: ECOLOGICAL INFORMATION

**12.1 Toxicity:** Adopt good working practices to prevent environmental release. Not classified for environmental hazards; based on available data, classification criteria are not met.
**12.2 Persistence/degradability:** Although the product is not classified hazardous for the environment, source states it is not easily biodegradable. Source statements: sinks if density >1; floats if density <1; easily dispersible in soil and water; easily absorbed in soil; may evaporate/disperse in air; floats on water if density <1; adsorbed superficially in soil; evaporates difficultly.
**12.3 Bioaccumulation:** N.A.
**12.4 Mobility in soil:** N.A.
**12.5 PBT/vPvB:** None.
**12.6 Endocrine disruption:** No endocrine-disrupting substances >=0.1%.
**12.7 Other adverse effects:** None.

## SECTION 13: DISPOSAL CONSIDERATIONS

**13.1 Waste treatment:** Send product (and emulsions, where applicable) and containers to approved companies, considering DPR 691 of 23/08/1982 (used-oil consortium) and Part IV of D.Lgs. 152/03-04-2006 and updates. Do not discharge to sewers, tunnels or watercourses. Recover if possible and comply with current local/national rules.

## SECTION 14: TRANSPORT INFORMATION

**14.1 UN/ID number:** Not classified as dangerous under transport regulations.
**14.2 Proper shipping name:** N.A. 14.3 Transport class: N.A. 14.4 Packing group: N.A.
**14.5 Environmental hazards:** N.A. 14.6 Special precautions: N.A. 14.7 Maritime bulk transport per IMO: N.A.

## SECTION 15: REGULATORY INFORMATION

**15.1 Regulations:** Dir. 98/24/EC; Dir. 2000/39/EC; Reg. (EC) 1907/2006 REACH; Reg. (EC) 1272/2008 CLP; Reg. (EC) 790/2009 (ATP1) and (EU) 758/2013; Reg. (EU) 2020/878; CLP ATPs 2-16: 286/2011, 618/2012, 487/2013, 944/2013, 605/2014, 2015/1221, 2016/918, 2016/1179, 2017/776, 2018/669, 2019/521, 2018/1480, 2020/217, 2020/1182, 2021/643.
**REACH Annex XVII:** Product restrictions: No restriction. Substance restrictions: No restriction.
**Other provisions:** Directive 2012/18/EU (Seveso III); Reg. (EC) 648/2004 detergents; Dir. 2004/42/EC VOC; D.M. 13 Feb 2003 PPE harmonized laws; D.Lgs. 81/09-04-2008 workplace health/safety; D.M. 14 Jan 2008 occupational disease reporting; D.P.R. 689/26-05-1959 fire-protection-control activities; Directive 98/8/EC biocidal products. Seveso III category: none.
**15.2 Chemical safety assessment:** No Chemical Safety Assessment has been carried out for the substance.

## SECTION 16: OTHER INFORMATION

**Use limitation:** Do not use for uses different from those identified; unevaluated risks may result.
**Guidance basis:** Guidance on preparation of Safety Data Sheets for lubricants, Industrial Group of Lube Companies (GAIL), aispec.federchimica.it.

**Regulatory basis:** Source SDS dated 06/02/2023, version 1. Completely updated in compliance with Regulation 2020/878. Document prepared by a competent person who received appropriate training.
**Bibliography:** ECDIN - Environmental Chemicals Data and Information Network, Joint Research Centre, Commission of the European Communities; SAX's Dangerous Properties of Industrial Materials, 8th Ed., Van Nostrand Reinhold.
**Disclaimer:** Information is based on the state of knowledge at the source date, refers solely to the product indicated and constitutes no guarantee of particular quality. It is the duty of the user to ensure that this information is appropriate and complete for the specific use intended. This SDS cancels and replaces any preceding release.
