SPINTA WHITE PHARMA

Product Code: SP-IN-PHAR

White Mineral Oil of Pharmaceutical Grade

CLP: DANGER - ASP. TOX. 1 H304

SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

1.1 Product identifier: Substance. Trade name: SPINTA WHITE PHARMA. Product code: SP-IN-PHAR.
1.2 Relevant identified use: White Mineral Oil of Pharmaceutical Grade.
1.3 Supplier: SPINTA ITALIA S.r.l., Viale C. Battisti 15, 27100 Pavia (PV), Italy. Tel. +39 331 801 9355. SDS contact: info@spinta-lub.it.
1.4 Emergency telephone: CAV Centro Nazionale di Informazione Tossicologica - Pavia, Tel. +39 0382 24444; CAV Azienda Ospedaliera A. Cardarelli - Napoli, Tel. +39 081 5453333.

SECTION 2: HAZARDS IDENTIFICATION

2.1 Classification: Direct and prolonged contact can cause eye and skin irritation. Hazards refer to the finished product and are reduced if used in water emulsion. CLP: Danger, Asp. Tox. 1 - May be fatal if swallowed and enters airways. No other adverse physicochemical, human health or environmental effects.
2.2 Label elements: Signal word: Danger. Hazard pictogram: GHS08. H304 May be fatal if swallowed and enters airways. P301+P310 IF SWALLOWED: Immediately call a POISON CENTER/doctor. P331 Do NOT induce vomiting. P405 Store locked up. P501 Dispose of contents/container in accordance with applicable regulations. Special Provisions: None. Contains: olio minerale bianco (petrolio). REACH Annex XVII special provisions: None.

2.3 Other hazards: No PBT, vPvB or endocrine-disrupting substances at concentration >=0.1%. No other hazards.

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Substances: Identification of the substance:

Qty	Substance	Identification	Classification
>= 90%	Olio minerale bianco (petrolio)	CAS 8042-47-5; EC 232-455-8; REACH 01-2119487078-27-0015	3.10/1 Asp. Tox. 1 H304

3.2 Mixtures: N.A.

SECTION 4: FIRST AID MEASURES

4.1 Skin: Injuries due to high-pressure jets may require prompt surgical intervention and possibly steroid therapy to minimise tissue damage and loss of function. Accidental injection under the skin can occur without visible external damage; take the injured person to hospital as soon as possible and do not wait for symptoms. Remove contaminated clothing and wash thoroughly with water and soap. Call a doctor if necessary.
Eyes: Wash immediately with plenty of water for several minutes with eyelids open. Seek medical advice; call a doctor immediately if pain and redness persist.
Ingestion: Do NOT induce vomiting under any circumstances. Obtain medical examination immediately.
Inhalation: After high vapour/mist exposure, remove to fresh/well-ventilated air, keep warm and at rest; seek medical attention if necessary.
4.2 Symptoms/effects: None reported.
4.3 Immediate treatment: Fresh air/ventilation after high vapour or mist exposure; medical attention if necessary.

SECTION 5: FIREFIGHTING MEASURES

5.1 Extinguishing media: Suitable media: class B extinguishing media, carbon dioxide, dry chemical powder, foam, sand, earth, water and CO_2. Avoid water jets; use water only to cool the surface of containers exposed to fire. No other unsuitable media are specified.
5.2 Special hazards: Avoid breathing combustion smoke/gases. Fire may form chlorine-, sulfur- and nitrogen-containing compounds, unburnt hydrocarbons and other potentially dangerous compounds. Burning produces heavy smoke.
5.3 Firefighters: Cool heat-exposed containers; use suitable breathing apparatus and full protective suit. Collect contaminated extinguishing water separately; do not discharge to drains. Move undamaged containers from hazard area if safe.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions: Avoid skin/eye contact; use PPE. For relevant spills, especially confined areas, avoid vapours, ventilate or use respiratory protection. Remove persons to safety. See Sections 7 and 8.
6.2 Environmental precautions: Prevent dispersion to soil, sewers and surface water. Retain contaminated wash water. Inform competent authorities if waterways, soil or drains are affected. Suitable uptake material: organic absorbent, sand.
6.3 Containment/clean-up: Spilled aerosol may ignite under suitable conditions. Contain large spills; absorb small spills with earth, sand or inert absorbent; transfer to suitable impermeable containers; dispose according to regulations; wash with plenty of water.
6.4 Reference: See Sections 8 and 13.

SECTION 7: HANDLING AND STORAGE

7.1 Safe handling: Avoid direct contact and inhalation of aerosol/vapour. Ensure adequate ventilation, especially if confined. Do not smoke/use open flames; avoid sparks/ignition sources. Keep containers closed. Avoid skin/eye contact. See Section 8. Do not eat or drink while working.
7.2 Storage: Keep in original closed containers with leakage control/containment, in a cool, adequately ventilated place away from heat, ignition sources and sunlight. Avoid electrostatic charge. Keep away from food, drink and feed. Incompatible materials: none in particular.
7.3 Specific end uses: None in particular.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters: No specific requirements in normal conditions. Avoid formation/diffusion of mist or aerosol using machine protection and localized ventilation/aspiration. No occupational exposure limit available. DNEL: N.A. PNEC: N.A.
8.2 Eye protection: Wear safety glasses whenever contact with the product is possible (UNI-EN 166). Not needed for normal use; operate according to good working practices.
Skin/body: Use full suit/apron and clothing providing comprehensive skin protection, e.g. cotton, rubber, PVC or Viton; change contaminated clothing and wash before reuse (UNI-EN 465/466/467).
Hands: Use protective gloves providing comprehensive protection, e.g. PVC, neoprene or rubber; replace worn oil/solvent-resistant gloves (UNI-EN 374).
Respiratory: If operational conditions and other controls are insufficient to respect exposure limits, use respiratory protection with filter for organic vapours and dusts/mists (e.g. activated-carbon mask). Not needed for normal use.
Thermal hazards / environmental exposure / engineering controls: None reported.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Property	Value / method
Physical state	Liquid
Colour	Colourless
Odour	Odourless
Melting/freezing point	-12°C; ASTM D97
Boiling point/range	Not defined / not available
Flammability	N.A.
Explosion limits	Not defined / not available
Flash point	180°C; ASTM D92
Auto-ignition temperature	Not defined / not available
Decomposition temperature	Not defined / not available
pH	Not defined / not available
Kinematic viscosity (9.1)	N.A.
Solubility in water / oil	Not defined / not available
log Kow	Not defined / not available
Vapour pressure	Not defined / not available
Density	0.865 kg/dm3; ASTM D4052
Relative vapour density	Not defined / not available
Particle size	N.A.
9.2 Viscosity	15.0 cSt @40°C; 3.5 cSt @100°C; ASTM D445. Miscibility: complete in hydrocarbons and most organic solvents.

SECTION 10: STABILITY AND REACTIVITY

10.1 Reactivity: Avoid strong acids, bases and strong oxidizers. Stable under normal conditions.
10.2 Chemical stability: Stable at room temperature / under normal conditions.
10.3 Hazardous reactions: None.
10.4 Conditions to avoid: Stable under normal conditions.
10.5 Incompatible materials: None in particular.
10.6 Hazardous decomposition products: None.

SECTION 11: TOXICOLOGICAL INFORMATION

11.1 CLP hazard classes: Acute toxicity, skin corrosion/irritation, serious eye damage/irritation, respiratory/skin sensitisation, germ-cell mutagenicity, carcinogenicity, reproductive toxicity, STOT-single and repeated exposure: NOT CLASSIFIED. Aspiration hazard: product classified Asp. Tox. 1 H304. Substance acute toxicity: LD50 oral >5000; LD50 skin >2000; LC50 inhalation >5000 mg/m3.
11.2 Other hazards: No endocrine-disrupting substances at concentration >=0.1%.

SECTION 12: ECOLOGICAL INFORMATION

12.1 Toxicity: Use good working practices to prevent environmental release. Product not classified for environmental hazards; criteria not met.
12.2 Persistence/degradability: Although the product is not classified as hazardous for the environment, it is believed not to be easily biodegradable. The product sinks in water if density is >1 and floats if density is <1. It is easily dispersible in soil and water, easily absorbed in soil, may evaporate and be dispersed in air, is adsorbed superficially in soil, and evaporates with difficulty.
12.3 Bioaccumulation: N.A.
12.4 Mobility in soil: N.A.
12.5 PBT/vPvB: None.
12.6 Endocrine disruption: No endocrine-disrupting substances >=0.1%.
12.7 Other adverse effects: None.

SECTION 13: DISPOSAL CONSIDERATIONS

13.1 Waste treatment: Dispose product and containers through approved companies, considering DPR 691 of 23/08/1982 and Part IV of D.Lgs. 152/03-04-2006 and updates. Do not discharge to sewers, tunnels or watercourses. Recover if possible; send to authorised disposal plants or for incineration under controlled conditions, complying with current local/national regulations.

SECTION 14: TRANSPORT INFORMATION

14.1 UN/ID number: Not classified as dangerous under transport regulations.
14.2 Proper shipping name: N.A. 14.3 Transport class: N.A. 14.4 Packing group: N.A.
14.5 Environmental hazards: N.A. 14.6 Special precautions: N.A. 14.7 Maritime bulk transport per IMO: N.A.

SECTION 15: REGULATORY INFORMATION

15.1 Regulations: Dir. 98/24/EC; Dir. 2000/39/EC; Reg. (EC) 1907/2006 REACH; Reg. (EC) 1272/2008 CLP; Reg. (EC) 790/2009 (ATP1) and (EU) 758/2013; Reg. (EU) 2020/878; CLP ATPs 2-16: 286/2011, 618/2012, 487/2013, 944/2013, 605/2014, 2015/1221, 2016/918, 2016/1179, 2017/776, 2018/669, 2019/521, 2018/1480, 2020/217, 2020/1182, 2021/643. REACH Annex XVII: Product restrictions: 3. Substance restrictions: none.
Other provisions: Directive 2012/18/EU (Seveso III); Reg. (EC) 648/2004 detergents; Dir. 2004/42/EC VOC; D.M. 13 Feb 2003 PPE harmonized laws; D.Lgs. 81/09-04-2008 workplace health/safety; D.M. 14 Jan 2008 occupational disease reporting; D.P.R. 689/26-05-1959 fire-protection-control activities; Directive 98/8/EC biocidal products. Seveso III category: none.
15.2 Chemical safety assessment: No Chemical Safety Assessment has been carried out for the substance.

SECTION 16: OTHER INFORMATION

Use limitation: Do not use for uses different from those identified; unevaluated risks may result.
Guidance basis: Guidance on preparation of Safety Data Sheets for lubricants, Industrial Group of Lube Companies (GAIL), aispec.federchimica.it.
Full text of phrases referred to in Section 3: H304 May be fatal if swallowed and enters airways. Asp. Tox. 1 - 3.10/1 - Aspiration hazard, Category 1.
Regulatory basis: Regulation (EU) 2020/878. Manufacturer's source SDS dated 01/02/2023, version 1, states that it was prepared by a competent person who received appropriate training.
