DIRECTION FOR MODERN LIVES

DIRECTION FOR MODERN LIVES.
BUILT DIFFERENTLY.

THE FUTURE BELONGS TO PEOPLE WILLING TO BUILD IT DIFFERENTLY.

Most careers advice was designed for a different generation.

A slower generation.

A more predictable generation.

A generation entering a world that no longer exists.

Careers School was created in response to that reality.

We believe young adults are capable of far more than they are often told.

More creative.

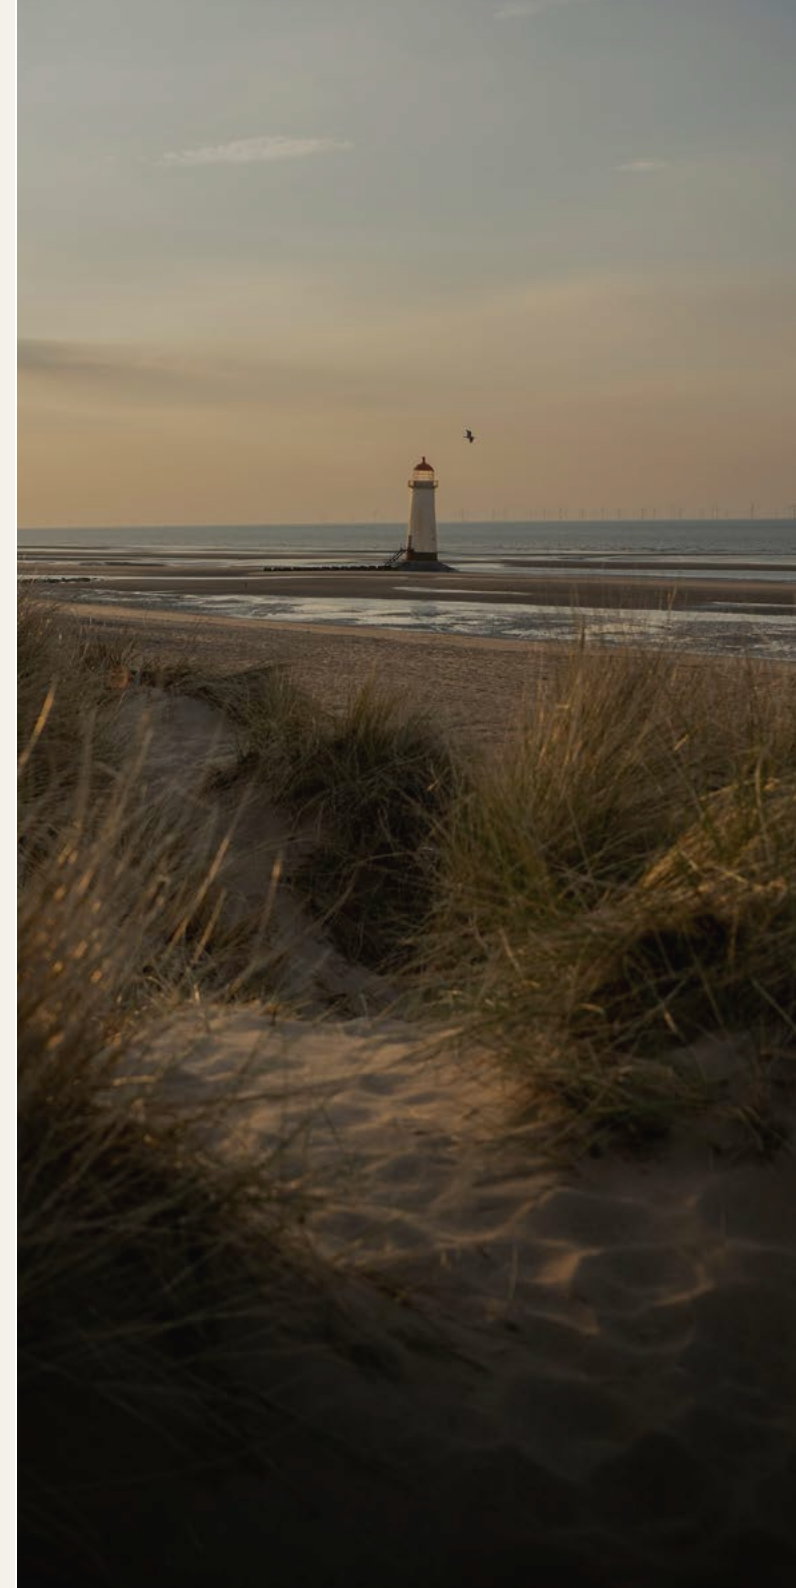

More intelligent.

More entrepreneurial.

More adaptable.

What is often missing is not talent, but exposure, confidence, networks and direction.

Careers School exists to change that.

WHAT IS CAREERS SCHOOL?

A NEW MODEL FOR CAREER DEVELOPMENT.

Careers School is a free membership-based programme for ambitious young adults aged 16–30 living across Denbighshire and the North Wales coast.

Part mentoring platform.

Part professional accelerator.

Part creative learning environment.

This is not traditional employability provision.

It is a contemporary ecosystem designed to help people build modern working lives with confidence, resilience and purpose.

The programme combines:

- Digital learning
- Real-world industry exposure
- Wellbeing support
- Mentoring
- Professional development
- Entrepreneurial thinking

WE BELIEVE ENVIRONMENT CHANGES MINDSET

We intentionally create spaces that feel:

- Aspirational

differently when they
feel inspired.**

MENTORS + INFLUENCERS LEARN FROM PEOPLE BUILDING REAL CAREERS.

Participants gain access to:

- Entrepreneurs
- Creatives
- Hospitality leaders
- Digital innovators
- Wellbeing practitioners
- Content creators
- Industry professionals

These are not motivational speakers.

They are people actively shaping modern working lives, sharing practical insight, lived experience and honest conversations about success, failure and growth.

**Real people.
Real careers.
Real stories.**

THE RESET AMBITION REQUIRES DISCIPLINE.

Careers School is supportive, but intentionally challenging.

Participants are encouraged to:

- Show up consistently
- Take ownership
- Build routine
- Improve communication
- Develop resilience
- Commit seriously to personal growth

We believe talent matters.

But habits, consistency and determination matter too.

**Reset expectations.
Rebuild confidence.
Redesign your future.**

NORTH WALES REIMAGINED

TOO OFTEN, YOUNG PEOPLE IN COASTAL COMMUNITIES ARE ENCOURAGED TO LOWER THEIR EXPECTATIONS.

Careers School exists to challenge that narrative.

We believe North Wales can become:

- More creative
- More connected
- More entrepreneurial
- More ambitious

This programme is about helping a new generation realise that possibility.

The future does not only happen elsewhere.

It can happen here.
