

Clear Cyber Advisory

Cyber Insurance Readiness. Shadow AI Risk. Secure AI Workflow Automation.

About

Clear Cyber Advisory helps small and medium businesses prepare for cyber insurance, reduce Shadow AI risk, and add or improve secure AI workflow automation with a clear, practical action plan.

We provide cyber readiness support so your business can understand risks, move forward with confidence, and avoid unnecessary technical confusion.

Why clients trust us

At Clear Cyber Advisory, trust is earned through clear communication, reliable follow-through, and honest guidance focused on the client's best interests.

Clarity. Focus. Confidence.

- Clear guidance without technical confusion
- Reliable follow-through with practical next steps
- Honest advice focused on your business
- Respectful support for sensitive business concerns

How we help

1. Cyber Insurance Readiness

Prepare for cyber insurance questions, evidence requests, and clearer renewal conversations with insurers.

What you get:

- Readiness review against common insurer expectations
- Gap list and practical action plan
- Evidence and documentation checklist

2. Shadow AI Risk

Identify AI tool use and reduce the chance of confidential data being exposed.

What you get:

- Shadow AI discovery questions
- AI tool, vendor, and data exposure review
- Plain-English AI use policy starter

3. Secure AI Workflow Automation

Improve focused workflows with AI, safely and clearly, without exposing sensitive business data.

What you get:

- Focused workflow map
- Risk check for data, access, and approvals
- Safer automation action plan

We help businesses prepare for cyber insurance, reduce Shadow AI risk, and answer client security questions clearly. You will know what to fix first, avoid insurance and client review surprises, control risky Shadow AI use, and add or improve AI workflows safely.

Get Cyber Ready.
