Smart home, smart choices

Accessibility

For individuals with mobility issues or disabilities, motorised blinds provide a more accessible option for controlling light and privacy levels within their homes.

Convenience

Motorised treatments are best for large or hard-to-reach windows and big rooms with multiple windows. Shield your interiors depending on time of day by automating when your window treatments open or close.

Privacy & Protection

Safeguard your privacy and make your blinds & curtains create the illusion that someone is at home when you're away.

How to control your automated window treatments

FULL AUTOMATION

Using your mobile phone, control or schedule your indoor and outdoor window treatments anytime and anywhere.

- Connexoon Window RTS
- Rollease Acmeda AUTOMATE

VOICE CONTROL

Adjust your curtains and blinds with any compatible home automation voice control devices like Google Nest or Amazon Echo.

WALL MOUNTED CONTROLS

Switches for room-by-room control. Display screen available in 3 finishes and frames available in 7 colours.

SENSORS

Give your home a life of its own. Automatically roll your shades up or down with **sun, wind, and temperature sensors.**

REMOTE CONTROLS

Simple, handy, and more controls. Different models available in different colours.

Not sure which control is best for you?
Let a Quicksew Automation Expert guide you!

We've partnered with the best just for you

So that only high quality products come into your home.

When you get motorised blinds or curtains from Quicksew, you get a team of experts in Somfy and Rollease Acmeda systems, and other home automation providers.

From design concept, to fabric selection, through to installation—we're with you every step of the way!

How to get started

While these automation solutions can be fitted to most existing windows, we highly recommend considering these early into your new build or renovation.

Home automation systems can include:

- **Indoor & outdoor window treatments**
- **Programming the opening and closing of your blinds**
- **Automation of multiple rooms**

Talk to a Quicksew Interiors Specialist to learn more about your options!

Why choose Quicksew?

Our Beginning

Established in 1977, Quicksew began as an upholstery company, and has grown to become the market leader in furniture and soft furnishing products for the residential market.

Roots in the Residential Market

Throughout our 45-year history, we have serviced over 6,400 homes in New South Wales.

Our Customer Community Today

While diverse in the residential & commercial sectors, Quicksew remains true to its residential roots. Up to this day we continue to seek and adapt the best trends and technologies to deliver high quality interior furnishings to our clients.
