

BONE NUTRITION

Calcium+

Strength starts
with the foundation.*

Bone nutrition is a team effort. Calcium+ combines three calcium sources with vitamins D3 and K, plus selected minerals, for a formula with more than calcium in mind.

THE DETAILS THAT MATTER

A structural essential*

Calcium is a central component of bones and teeth.*

A purposeful pairing*

Vitamin D helps the body absorb calcium; vitamin K is involved in normal bone biology.*

A wider supporting cast

The formula also includes zinc, copper, manganese and boron, with amounts shown on the label.

A clear ingredient story for people making bone nutrition part of a long-term routine.

Supplement Facts

Serving Size: 1 Capsule

Amount Per Serving	% Daily Value
