6. Please add an accent mark to the brand name:Lévora

CASA LEVORA – YOUR ADDRESS IN ANZURES

7. Regarding the **color palette**. The white background feels a bit too clean and minimal, which reduces the sense of warmth and luxury that we want Casa Lévorá to convey. Similarly, the green accent doesn't feel entirely aligned with the brand identity we've been building.

We believe the darker palette, particularly the use of black, elevates the overall perception of the brand and better reflects the sophistication, intimacy, and residential character of Casa Lévorá. It feels more premium and consistent with the visual direction we've established across the property.

We'd love to explore a version leaning more heavily into the darker tones to see how the experience evolves.
